Dear Home folks:

I was very glad to get your letter today and to learn that you all were o.k., hope this will find you all well, I am about the same as usual. Guess you all think I get in a real big hurry to ans your letters, but I had rather for you too owe me a letter than for me too owe you a letter.

I am using the free paper to write on this time as you will see it has the heading printed at the top of the pages. you see I am here in the Lobby of the Amarillo Hotel, it sure is a nice place here, but it is a pretty noisey place as there are a lot of soldiers in here.

well I guess you will get the clock sometime this coming

week as I went to the store and gave them the order about an hour ago and the lady said it would go out in the mail tonight, hope you get it O.K. I think it is a smaller clock than you are expecting to get, but I hope you like it. It will be about a month ahead of your birthday, but guess that will be O.K. anyway.

Mama I wish you wouldn't worry so about Lillie as you know she is better off not to live with a man like he is anyway. I wrote her a long letter about what I would do if I were her. I know you don't want her living with a man like that either. You know she will be O.K. if she can hold her job and not
