Dear mama and Ellis

How are you all? Fine I hope and this leaves me o.k. I have my crown on my tooth but I guess I will get another one because this one doesn't quite fit. I went down on my lunch hour today and had him to grind it off so I could bite down and not hit a tooth.

My roommate went to the drugstore and got some magazines and lemon drops (of all the kind of candy) and she loves them though.

I would hardly have known it was valentines day if you all hadn't sent some valentines.

The one with the man on it was not quite as good looking as Frank though. Got one from William H. I waited too late to get my valentines because I looked in the stores & couldn't find any.

How is that sick yearling? Hope he got o.k.

Be sure and plant plenty of English peas. May be home to help you set them. Or have you started a garden yet? Have been working hard so will class another soon. Love, Emma Dean
