

4-8-40

Dear Brother Dennard,

Got your picture and it is really cute of you too. Was surprised to hear from you however and I want to tell you before you get mad that you have probably already gotten the knife by now and if not you will right away. Hope you like it. And don't get mad because I sent it to Dorothy. Remember to keep those Co Jig saw puzzles separate and they are really fun to work.

Be sure and go to see "Lassie Come Home" if you can because it is a swell show about a boy and a dog you know. I have not seen it yet.

Was over to Lillies last night and she is going to make me a play suit to sleep in that is real cute.

Yours truly is being real good just working and sleeping and not off gallivating around like some girls. But we shall see what we

shall see.

No I always have to work on Saturday so I don't get to hear the "Hit Parade" but I could hear the Grand Ole Opry if I wanted to but I don't.

Wish I could go fishing some times. But I don't go with my wife so there is no place to fish around here.

Go ahead and make good grades on your exams now. That what you did make was good though.

Take it easy now and be a good boy and write soon.

Love  
Emma Bean
