NUMBER 21

THE WINNERS!—Pictured are the winners of the three bathing beauty groups, as picked by judges at Splash Day activities at Pleasant Grove park last Saturday. Betty Hannah, left, was named winner of the high school group, Juanita Chandler won the graduate title and Joan Wells, right, was picked as best in the pre-high school division. Win-

ners at Lakeside colored pool were Otha Lee Spencer in the ex-student class, while Eloise Nichols won the high school title. Judges at Lakeside were A. H. Charlton, Prof. E. E. Cleaver of Dunbar High School who gave the principal address there and Jim Jones of Diboll.

Two More Scholarships Given By Local Chapter

Two secretarial training scholarships were awarded again this year by the Tall Timber Chapter of National Secretaries Association, according to the scholarship committee, Mary Lee King of Nacogdoches and Lottie Wimp of Diboll. The recipients of the scholarships are Bobbie Miller of Nacogdoches and Billie Muriel Howard of Diboll. Bobbie is the daughter of B. H. Miller of Nacogdoches and Billie Muriel is the daughter of Mr. and Mrs. W. H. Howard of Diboll.

The funds for the scholarships were provided by money raising activities which the members of the Chapter have engaged in during the past year and by generous help from Pat Scoggins, president of Pineywoods Business College, who presented the full scholarship gratis for the Chapter's program.

The program is designed to give secretarial training to ambitious high school graduates of good character who would not otherwise be able to receive the training for a secretarial career. The first requirement for any graduate considered for this scholarship is that they have aspirations for the secretarial field.

The scholarships provided by Tall Timber Chapter may be used at Nacogdoches Business College, Nacogdoches, Pineywoods Business College, Jasper or Pineywood Business College, Lufkin, depending upon the choice of the girls chosen.

Mr. Don Burnley spent last week in Pinedale on business.

Yarborough Gets Loan For Co-Op

The following telegram was called to The News-Bulletin Monday from U. S. Senator Ralph Yarborough:

"The Rural Electrification Association today announced approval of a loan to the Jasper-Newton Electric Co-Op at Kirbyville, Texas, in the amount of \$136,000.

"The loan will be used to bring electric power to 600 new customers and make system improvements in Jasper, Newton, Orange and Angelina Counties."

(Signed)
Ralph Yarborough
U. S. Senate

Mrs. Ramsey Attends SBC In Houston

Mrs. E. P. Ramsey, Sr., attended the Southern Baptist Convention in Houston, May 20 through May 23. Mrs. Ramsey, who is active in all church work at the First Baptist Church here and is WMU President, was elected by the Church to represent them as Messenger.

Dan Smith, pastor of the church here, also attended the Convention as a Messenger.

Mr. and Mrs. Carl McGoethlin visited the Don Burnley's on their return from Houston where they attended the Southern Baptists Convention. Donna and Linda Burnley went back to Texarkana with their grandparents for a three-week stay.

Baptist News In General

The First Baptist Church was recently presented a "riding" lawnmower as a gift from Mr. George Smith, church Treasurer.

Work has begun on a Pastor's Study at the Church. A window unit has been ordered, and will be the only expense to the Church. Marvin Baker and James E. Blake provided labor and material at their own expense. Bro. Smith plans to be in the new study around the end of the month.

Preparations are being made for the Laymen and Pastors meeting to be held here on June 27. The ladies of the church are planning the menu for the meal that will be served to the 100 men expected to attend. Plans are not complete, but the men of the Church are urged to reserve the night of the 27th for this important meeting.

Seniors Return From New Orleans Trip

The Diboll High School seniors have returned from their trip to New Orleans. They left on Wednesday, May 21 and returned on Monday.

Mr. and Mrs. Dan Fenley and Mrs. LaFerne Collins chaperoned the Seniors The News-Bulletin erroneously reported last week that Bro. and Mrs. Morris Kemper planned to accompany them, but this was not true.

Editorial

Happy Postscript

The two new pools in Diboll; one for white and one for Negroes and the new pool in Lufkin for Negroes are marks of genuine progress and enlightened community development in Angelina County.

The mayor and City Council of Lufkin are to be commended for this new evidence of their constructive policies. The two new pools in Diboll represent what must be described as mammoth evidence of what a united community working together can do. The understanding and spirit of cooperation which went into the work which made these pools possible is a monument to the people of Diboll.

The patronage of the people of Diboll, their conduct in the pools and their care for the pools will undoubtedly determine whether or not future undertakings of a similar kind will be possible. Many people did not believe these pools could be built. Many now believe that they will be abused. We believe that every citizen in Diboll will appoint himself in pride and self-interest to see that the pools are fully patronized, that order and interest for the comfort and safety of others in the pools are observed at all times and that acts of harm or vandalism are prevented or punished when they occur.

We believe the new pools will be but one step in a continuous course of growth and progress for Diboll as a good community in which to live.

Third Coral Snake Killed In Diboll

Coral snake number three was killed in Diboll last Friday.

The bright-colored reptile was killed on the patio of the Lamar Collins home, recently completed in the Pinedale Addition.

One of the Collins' daughters almost stepped on the snake before she killed it. The Collins' maid killed a coral in the same spot the preceding Monday.

The coral killed Friday was about 18 inches long.

Despite thundershowers and high winds, seven men on horseback met at the barn in front of the Gulf Station here Sunday afternoon for the first meeting of a proposed Trail Riders Association in Diboll.

The group, headed by temporary president Moody Smith, held a brief business meeting before setting out on a 10-mile ride through the Burke-Pine Valley area.

President Smith told The News-Bulletin today that the group will meet again this Sunday afternoon at the same place. He added: "The weather kept many of our potential members at home last Sunday, but we hope to have a larger number out this Sunday afternoon. We intend to meet for a three-hour ride each Sunday afternoon for the next four weeks. At the end of that time, officers will be elected and a name for the unit will be adopted."

Anyone who owns a horse and likes horseback riding with friends on the weekend is invited to join the new organization, Smith said.

He further stated that the group would be used as a posse in case of emergencies, "such as the boy who was lost two weeks ago."

The unit has the full blessing of Sheriff Leon Jones, who indicated that it could prove very useful in widespread search parties, if the members are agreeable.

Present at the first ride last Sunday were: Moody Smith, Moody Smith Jr., Henry Earl Fox, Larry Tolbert, Linwood Johnson, Sherril Johnson and Mac Jones. The 10-mile ride was made in about three hours.

Linwood Johnson was appointed Trail Boss for this Sunday's ride.

No charges will be made for membership in the volunteer outfit, Smith said.

Many Lufkin Stores Will Close May 30

A majority of Lufkin stores will be closed on May 30 to observe Memorial Day, John D. Smith, Chairman of the Merchants Division, has announced.

Mr. Smith said that he based the statement on the decision made on February 25th by the group of merchants in a general session at which time all of the Holidays were designated.

"Since the issue was raised again a few days ago by members of the Department Stores and Specialty Shops committee I have had several calls from merchants that they desired to adhere to the decision as made in February," Mr. Smith further stated.

Local banks have stated that they would close if merchants close to observe the holiday.

Crowd Sees Pools Open Under Clear, Blue Skies

By BETH DURHAM

Large crowds of white and Negro people were on hand to witness the dedication of Diboll's two new swimming pools last Saturday afternoon. Weather was perfect for the Splash Day activities as temperatures hovered in the low nineties.

Dick Hendricks Wins 1958 Yard Contest

Mr. and Mrs. E. F. (Dick) Hendricks were awarded a year's supply of water free this week by J. D. Winder of Diboll Water Company, for having what four judges thought was the most beautiful yard in Diboll.

The judges told The News-Bulletin they regretted that judging came after most flowers had died. Mr. Hendricks' brother, Joe Bob, who lives next door, ran the winner a close race.

Winner of the event last year was Mrs. Willie Trevathan, who lives less than a block from the Hendricks.

Post Office, Bank Will Close For Memorial Day

The U. S. Post Office here and Diboll State Bank will be closed all day Friday, May 30, in observance of Memorial Day.

Postmaster B. F. Hines issued the following statement in compliance with a Postal Regulation:

"In compliance with Presidential Proclamation 3243 of May 17, 1958, the flag of the United States should be flown at half-staff on all postal installations all day on May 28, 29 and 30, 1958, upon the occasion of the Return and Final Interment of Two Unknown Americans killed in the Second World War and in the Korean Conflict."

If any stores in town intend to close, their owners have not indicated such to this newspaper.

Diboll vs. Red Sox

Pony Grad Teams Underway Tonight

Diboll's Pony Graduate team, known last year as the Teener Tigers, will slug it out with the Lufkin Red Sox at Teener Park in Lufkin in the second game of the 1958 season.

Regular season activity was scheduled to begin Monday night, May 26, but was postponed because of graduation exercises in Lufkin. Opening games were supposed to have been played Tuesday night instead.

In those opening games, Diboll was pitted against the Cubs, while the Giants and Red Sox were scheduled to go in the other game.

After this week, however, all Pony Grad games will be played on Monday and Thursday nights, according to Robert Ramsey of Diboll. This does not include rained-out games.

Diboll is scheduled to lock

horns with the Giants Monday night, June 2, in the second game of another double-header. The Red Sox and Cubs meet in the first contest.

Players now with the Pony Grad team thus far are: Kenneth Clark, Douglas Ellison, Larry Golms, Don Hendricks, Jimmy Landrum, Billy Frank Pate, Hen-

ry Mack Perkins, Billy Powers, Bobby Ramsey, Drayton Solly, and Floyd Anderson. (See PONY, Page 5)

For complete 1958 playing schedules of Diboll's Pony League and Pony Graduate team, see Page 5. Next week's Diboll News-Bulletin will carry the season's Little League schedule and first batting averages of the season in both Little League and Pony League.

Mrs. Arthur Temple Sr. of Texarkana snipped the ceremonial ribbon at the Pleasant Grove park at 2:30 and 100 youngsters promptly splashed their way into the water. The ceremony climaxed a dream of long-standing for many Diboll people, as well as Mrs. Temple, whose check for \$10,000 was used as the starting point by the Booster Club in the community project.

Program chairman Clyde Thompson served as master of ceremonies at Pleasant Grove. Brief remarks were made by current Booster president Calvin Lawrence and fund-raising chairman Horace Stubblefield.

Three bathing beauty contests were held at Pleasant Grove pool. Entered in the junior high school class were Joan Wells, Margie Welch, Gloria Taylor and Nita Ramsey. Joan Wells won that contest.

Entered in the high school division were Dicy Bowman, Johnnie Sue Fox, Betty Hannah, Barbara Richmond and Ginger Taylor. Winner was Betty Hannah.

Barbara Camp, Juanita Chandler, Lena Dean and Lou Hammons were contestants in the graduate group, which was won by Miss Chandler.

Rhoda Chandler managed the graduate group, while Lottie Wimp and Bea Nogle arranged the high school show. Peggy Fears was in charge of the junior school group.

Judges for the beauty contests were Mr. and Mrs. Harry Castleberry and Buddy Ivie, all of Lufkin.

Mrs. Arthur Temple Sr. made the following remarks prior to the ribbon-cutting ceremony: "This is one of the happiest days of my life, as it marks the realization of a dream of long-standing for many of us. What little I had to do with the building of these beautiful pools was done out of appreciation of the love and loyalty of the people of Diboll, and in memory of my father-in-law, T. L. Temple, whose wisdom and foresight created Southern Pine Lumber Company, and my husband, Arthur Temple Sr., who carried on his father's work. May many hours of happy relaxation be in store for all of you."

Mrs. Temple also cut the ribbon at Lakeside Park Pool, in ceremonies which began at 3 p.m. She congratulated colored citizens for using the name of the late Walter Allen in their recreation program. Allen, who died in 1953, was a retired employee who worked for Southern Pine almost 50 years.

Prof. E. E. Cleaver of Lufkin's Dunbar High School delivered a brief, most interesting talk to the Lakeside crowd, and pointed (See POOLS, Page 5)

Baptist Bible School Will Open June 9

Vacation Bible School at the First Baptist Church has been set for June 8 through June 13. The hours each day will be 8-10:30 a.m.

The School will be headed by Mrs. Ben Donahoe as Principal. Music will be furnished by Miss Jo Ann Hendrick and General Secretary is Mrs. J. R. Hendrick.

Superintendents have been selected for each department. They are as follows: Mrs. Bob York, Junior Department; Mrs. Curtis Heath, Intermediate Department; Mrs. Lee Weeks, the Primary Department and Mrs. Bob Scoggins, the beginner's Department. Chairman of the Refreshments Committee is Mrs. H. E. Whitman.

All children are invited to attend classes and learn the fundamentals of the Bible.

THE BIG MOMENT!—Mrs. Arthur Temple Sr., of Texarkana is about to cut the ribbon which officially opened the long-awaited swimming pool at Pleasant Grove Park last Saturday afternoon. Standing next to her is current president of the Booster Club, Calvin Lawrence. Mrs. Temple also cut the traditional ribbon at the Lakeside Colored park pool, immediately following ceremonies at Pleasant Grove. "I hope these pools bring everyone many hours of happy relaxation," she told large crowds at both pools. (photo by mowan)

The Babson Statement

Babson Discusses Hedges Against Inflation

Roger W. Babson

BABSON PARK, Mass., May 15—Because of the increased government expenditures for missiles, etc., there is much talk about more inflation coming. If Congress would accept the recommendations of the Hoover Commission, there would be no need of increasing the budget. We could save enough on unnecessary and wasteful spending to offset any increase in defense outlays. However, as all the Congressmen are up for re-election this year, there is little chance of their making these recommended savings.

STOCKS AS A HEDGE

The general feeling is that stocks are the best hedge against inflation. Let us look at the record: This talk about inflation started in 1951. Here is what has happened to eight stocks since then. But many readers will say that these are hand-picked. O. K., but let me follow this 1951-1957 list with a more recent one covering twelve other popular stocks with an average 1957 drop of 65% to 70%. In fact the entire stock market declined about 20 percent. Surely, none of the stocks below would have been good hedges against inflation.

DECLINES IN VARIOUS WELL-KNOWN STOCKS 1951-1957

New Jersey Zinc, High 83 and three-fourths, Oct. 1951, Low 17 and five-eighths, Dec. 1957, Decline 79%.
Masonite Corp. High 50 and one-half, Mar. 1956, Low 23 and one-fourth, Dec. 1957, Decline 54%.
Congoleum-Nairn, High 28, June 1951, Low 6 and five-eighths, Dec. 1957, Decline 77%.
Commercial Solvents, High 35 and one-tenth, Jan. 1952, Low 9 and seven-eighths, Dec. 1957, Decline 72%.
American Motors, 25 and three-fourths, Feb. 1953, Low 5 and one-fourth, Jan. 1957, Decline 80%.
Texas Gulf Sulphur, 44 and seven-eighths, June 1955, Low 14 and one-half, Dec. 1957, Decline 68%.
United Fruit, High 73 and five-eighths, Feb. 1951, Low 33 and five eighths, Dec. 1957, Decline 54%.
United Air Lines, High 49, July 1955, Low 18 and one-eighth, Oct. 1957, Decline 63%.

DECLINES IN OTHER STOCKS DURING 1957 ONLY

Admiral Corp., High 14 and seven-eighths, Date 1-7, Low 6 and one-half, Date 12-30, Decline 56%.
Briggs Mfg. High 13 and seven-eighths, Date 1-14, Low 4 and seven-eighths, Date 12-30, Decline 68%.
Chi. & No. Wn. Ry., High 34 and three-fourths, Date 4-29, Low 11, Date 12-30, Decline 68%.
Del. & Lackawanna R.R., High 25 and one-half, Date 1-7, Low 6 and one-eighth, Date 12-18, Decline 76%.
Jefferson Lake Sulphur, High 47 and three-fourths, Date 7-11, Low 18, Date 11-19, Decline 62%.
Mo.-Kan-Tex. R. R., High 12 and three-fourths, Date 1-8, Low four and one-fourth, Date 10-22, Decline 67%.
Oliver Corp. High 13 and seven-eighths, Date 1-11, Low 7, Date 12-30, Decline 50%.
Studebaker-Packard, High 8 and one-fourth, Date 4-11, Low 2 and five-eighths, Date 12-30, 68%.
United Dye & Chemical, High 9 and three-fourths, Date 1-9, Low 1 and one-eighth, Date 12-27, Decline 88%.
U. S. Hoffman Mch. High 17 and one-eighth, Date 1-7, Low 5 and three-fourths, Date 10-22, Decline 66%.
Van Norman Industries, High 13 and one-half, Date 1-9, Low 4 and five-eighths, Date 12-20, Decline 66%.
White Sewing Machine, High 13 and five-eighths, Date 1-10, Low 4 and three-fourths, Date 12-23, Decline 65%.

LAND AS A HEDGE

A careful study of different forms of investment teaches me that raw land on dry ground ten miles or less from a small city or town has the best record as an inflation hedge. To secure such at the right price, it should be purchased before it is thought of for lots for development. However, even then, with roads, electricity, water, and sewage, it gives one real security. This may be more important than profit. Such land or small farms just outside a town limit should be excellent hedges.

If you do not want to be bothered with the taxes and care of such land which you do not expect to occupy but are to hold for speculation, your broker will name some land companies whose stocks are listed on a stock exchange. In fact, some railroads are worth more as land companies than as railroads. Some Canadian mining companies with valuable underground deposits of ore should also be good hedges against inflation if bought at low depreciated prices. They are off now about 50%,—suffering from the big boom of a few years ago.

CASH IN THE BANK

Personally, I like best now putting my savings in the bank at 3½% interest. Of course, your broker may tell you such bank deposits are poor hedges against inflation. It is true that the purchasing power of a bank account for food, clothing, and shelter will decline as the cost of living increases. Therefore, I would not want to leave my funds in a bank account too long. But such a loss of interest or decline in purchasing powers, over a few years, is not notable compared with the possible decline in stock prices during said period.

When the people ask me the best fertilizer for an orange grove I always say: "The footprints of the owner." Hence, I believe that the best of all possible land purchases for an inflation hedge is land adjoining what you now own. This you can watch and make more valuable. Of course, you would not buy land anywhere that you did not first see. There is much land "outdoors" and no reader will see anyone get a monopoly of it. In short, I believe inflation is slowly coming as it always has been; but it is nothing to get panicky about.

STOP! LOOK!

At SUMNERS PONTIAC

Used Cars In Lufkin!!!!

All makes of fishing cars now available at any price! STOP, LOOK, and you'll want to buy! See Loose Carswell today!—Phone NE4-4217 or NE4-7508 after 6 p.m. daily or Sundays.

Less-than-perfect daintiness can sometimes create a less-than-perfect impression of you! And once that small jarring "offense" has registered, it's, alas, almost impossible to erase. Do you consider all the little points of daintiness?

Is your hair always sweetly clean and fragrant? For a between-shampoo pickup, first rub scalp briskly with cologne for two minutes; then brush the hair for another two minutes. Finally, set your hair with cologne and it will be fresh and crisp again.

Daily care of your lingerie is no problem today with the many easy-care nylons, dacrons and drip-dry cottons. For a charming personal touch, add a few drops of your favorite cologne to the final rinse water.

Do you know there's now a scientifically tested, medically approved deodorant powder to give you a flower-fresh feeling on days when you need extra protection? Unlike creams or sprays Quest is not scented and contains the safest, most effective deodorizer to protect you at this time when glands are overactive. A silky-soft powder, Quest is the answer to a woman's most intimate grooming problem.

Why not carry an extra pair of white gloves in your handbag so that you can change-off as soon as your gloves show first signs of soiling. All white touches, such as collars, cuffs, scarves, should be spotless and will be if you wash them after each wearing, adding a little bluing to the wash water.

Chamber Questioned About Early Settler

The chamber of commerce is being requested for information about a possible pioneer day record of James Calvin Johnson who came to Texas, settled and married Miss Martha Rebecca Peyton of Alabama. The inquirer believes that they were supposed to have settled near Webberville

THE SHAKEDOWN

Silly, But Unfunny!

The needs of the Defense Department and the existence of a recession are being used as excuses not to keep Federal spending down.

But nothing can excuse such silliness as exists in the Budget in this example:

The Government plans to spend \$756 million to remove land from cultivation, through the "soil bank" program. The same government also plans to spend \$216 million for irrigation to put more land into production. And it plans to spend almost 2½ billion dollars to remove surplus crops from the market.

Americans should let their Congressmen know they don't want their money to be wasted like this—or in any other way. We Honor their Memory

or Chireno. The writer also mentions that a James B. Johnson was supposed to have owned what was called the "Half Way House" in Chireno and that James B. Johnson was mayor of the city in the very earliest days. Mr. Brown asks that anyone who may have old records or knowledge of the people in question should contact the chamber of Commerce.

GOOD Catch!

Yessir, that's a fine catch. We are so interested in fishing results in Angelina County that we have contracted Mr. Jessey Barrow to write a weekly column about fishing, boating and hunting. "Angelina Angler" is for ALL Angelina County sportsmen, and you can read this column each week by sending \$2 for a full years subscription to The News-Bulletin. Send mailing address and check or money order to: Diboll News-Bulletin, Box 518, Diboll, Texas.

Local Laymen to Attend Annual Conference Of Methodist Churches in Houston June 2

The 119th session of the Texas Annual Conference of the Methodist Church will meet in the First Methodist Church, Houston, June 2-6, with Bishop A. Frank Smith, Resident Bishop, presiding.

The conference preacher will be Dr. George Fallon, pastor of the Lakewood Methodist Church of Cleveland, Ohio.

The Conference includes 460 Pastoral Charges with 650 churches, and a membership of approximately 195,000 in East Texas, extending west to a line from Bay City to Brenham, Giddings, Marlin, Fairfield, Wills Point and DeKalb near Texarkana.

At the time of its organization

in 1939 the Conference was the only annual conference of the Methodist Church in Texas. Since its organization four other annual conferences have been organized: North Texas, Central Texas, Southwest Texas.

Mrs. M. A. Currie is Lay Member and Joe Carter Denman is Reserve Lay Member of the conference from First Methodist Church in Diboll.

Rev. and Mrs. D. Townes Windham and son plan to attend the session. The conference will adjourn at noon Friday, June 5, with the reading of the appointments of the ministers for the Conference Year 1958-59 by Bishop Smith.

Angelina Angler

By JESSEY BARROW

ton 6, D. C.

Our grapevine reports quite a bundle of fish are being caught below the dam at Dam B. However, we have had no names on the fishermen or information on the kind of fish.

It is known that the flood gates are all open and the water is going over the spillway. This of course makes the water below the dam deep and swift, with a strong under tow. So fellows, if you try this one, watch your step. The fish could catch you!

Mr. A. G. Morris reports ten nice white perch and three catfish from the new Ellen Trout Lake, which is the old City Lake, last weekend. Mr. Morris was only m'nnow fishing, but he observed that bass were breaking water in good fashion. I'm sure he will have his casting rod next time . . . and I may be there to land a helping hand.

I made the usual backlash this weekend and netted five small bass. But, as every fisherman knows, if you keep 'em you have to clean 'em, and if you clean 'em you have to eat 'em, so I returned the little fellows to the water with my blessings, and the hope that next year we will meet under more favorable conditions. I did learn something of interest on this trip, however.

My friend Mr. Williams and guest had been frog-gigging the night before on Lake Tinkle and with excellent results. So if there

With spring in full stride and summer vacation plans in the making, our thoughts turn to the family hustle and bustle . . . and the tackle box. But the big question is: "Where shall we go?"

A timely suggestion along this line is the ten-color recreation map included as a supplement in the May issue of National Geographic. This shows in detail the national parks, monuments and shrines of the United States and Canada. Like an engraved invitation to travel, this latest addition to the Atlas series unrolls a wide display of scenic, historic and scientific wonders preserved for your enjoyment.

This is really two maps in one, for its reverse side carries enlargements of a dozen of the most visited parks, with roads, trails, railways, ranger stations, buildings, and lakes plainly marked for your convenience.

For those who are not members of the National Geographic Society, this map can be obtained by sending 50c to the Society at 16 Th. and M. Streets, Washing-

BETTER SCHOOLS AND YOU

by HENRY TOY, Jr., President National Citizens Council for Better Schools

AMERICAN VS. FOREIGN EDUCATION
It's become very fashionable in recent months to extol the virtues of foreign education with the clear implication that it's better than anything we have to offer students in this country.

Another frequent example is the college preparatory course in England. Again, the critics don't bother to say that only a very few are allowed to follow that course.

In most European countries, the student has little to say about what course he does follow. It is determined in most part by examination. If an English boy of eleven, for example, doesn't qualify for the college preparatory course, it's only rarely that he's given a chance later on to get into college.

There are things that are very fine about European education. There are also some things wrong with American education. What is needed instead of an unfair comparison, however, is a sincere attempt to meld the best from both systems. We can learn some things from foreign schools but they can be incorporated into our system where the student is given a broad opportunity to make the most of his abilities no matter who he is.

If you'd like more information on this, write Dept. A, Better Schools, 9 East 40th Street, New York City.

BETTER SCHOOLS BUILD BETTER COMMUNITIES

are any among our readers who like frog legs, this is the time of year to get the big ones. William says he has some real whoppers. Cabins and boats are available for overnight parties.

In the shooting news, we are happy to welcome Clark Anderson back in the field with a gun. Clark is still using a cane as a result of his near-tragic auto accident. The cane didn't bother Clark on his first trip to the field though. To ease the strain on his bad leg, Clark uses his little deer hunter's stool and I will vouch for the fact that it is hard to ride, even on a deer stand.

Speaking of deer, when I arrived home Wednesday afternoon, D. L. Hemphill had a call in for me to come see his new deer head. The beautiful nine-point white tail was taken in Cypress Hunting Club last December. Friend Jerry can be justly proud of a nice trophy that will be enjoyed for years after the hunt is over.

Also on the gunpowder side of the ledger: Chalk up 190 crows for the Dixon Brothers of Lufkin, taken on hunts last Saturday and Sunday afternoons. A nice total and a job well done, but not too far behind was Herb White, Sr., Herb White Jr. and this writer with 77 crows and 12 hawks for

\$2.5 Million Building Program at S.F.A.

NACOGDOCHES, Tex. — A \$2.5 million building program providing for five new structures soon will be launched by S. F. Austin State College.

Dr. Paul L. Boynton, SFA president, announced the forthcoming construction of an auditorium and fine arts building, a dormitory for men and one for women, a building for the college feeding service, and a classroom and office building primarily for health instruction. The program was approved at a recent meeting of the college's Board of Regents, he pointed out.

Revival Underway At Shady Grove

A fellowship revival is now underway at Shady Grove Congregational Methodist Church, located three miles east of here on Farm Road 58.

Services begin at 7:30 p.m. each night for the revival, which runs through May 30. A different speaker will appear each

night. Pastor of the church is Rev. William Provost.

A county commissioner has to be an expert in many fields.

Pictured above is Calvin Pouland, Commissioner for Precinct No. 1 in Angelina County, Texas showing his County Judge, Eddie McFarland and Hamp Davis, Commissioner for Precinct No. 3, Angelina County, Texas what he looks for in piling to assure his precinct of getting full value for every tax dollar. Piles are a big item in county road construction and wood piling properly pressured treated is the best and least expensive of any, according to Pouland.

The piling shown above is about to leave the pressure treating plant of Southern Pine Lumber Company in Diboll, Texas. Pouland is building six county bridges with Southern Pine Lumber Company material in his pres-

ent program.

"The safety of our school children in school buses if nothing else prompts me to use pressure treated materials," according to Pouland. "We are building bridges to last forty years or more because we can't afford to come back every four years and build new bridges."

All piling under the bridges in Precinct No. 3 of Angelina County are presently of creosoted materials. Precincts 1, 2 and 4 have adopted a policy of replacing all bridges with similar materials. Like Commissioner Pouland, J. W. Boulwee, Commissioner of Precinct No. 4 started this month receiving pressure treated piling from Southern Pine Lumber Company on a similar bridge program.

Carolyn Kelley Wins Music Scholarship To Stephen F. Austin College

Miss Carolyn Kelley of Diboll informed this office today that Mr. Hudgins of the Stephen F. Austin band in Nacogdoches has presented her with a four-year scholarship.

Registration, room assignment and study course selection has been completed for Fall entrance.

As a senior at Diboll High School, Carolyn this year completed nine years of band. She will hold the position of first chair clarinet in the S.F.A. Band.

Carolyn plans to major in music, as she has done for the past 12 years. Her minor will be elementary education.

Recession Talk Is Dying Down

This may or may not be a clue to an upturn in the economy, but observers note there is less talk of recession these days.

The number one spot where this has been noted recently is in Washington. The word recession barely got a mention in President Eisenhower's press conference last week, which probably was accounted for by the interest in Anti-American demonstrations in several foreign countries.

Experts note however, that even the politicians are less vociferous over the recession than they were not long ago.

There is less talk of a tax cut at this time to aid the economy. Such a trend it was felt, might indicate that the lawmakers are convinced a cut isn't necessary to bring back the nation's economy.

Also there is less talk of plans for devaluation of the dollar through the process of raising the price of gold. And, apparently less worry over the steady loss of gold to foreign nations that has been reducing the nation's gold hoard by 980-million dollars worth of the metal so far this year.

Fewer plans are being put forward for spending the nation out of the recession, and this, say the conservatives, is all to the good. They consider the current budget situation inflationary enough with the prospect of a ten-billion dollar deficit.

Business men have been saying right along that too much recession talk could delay the recovery movement.

On the other side, they hold that a lull in that type of discussion, plus a bit more on the optimistic side should be a big help toward hastening the upturn.

Hence there is an apparent effort to play up the better side of the business news. And recently it has been better without the need of any artificial interpreta-

tion. Steel mills have been raising operations each week for three weeks, and according to the metalworking magazine, Iron Age, steel leaders still are banking on a steady improvement in their market in May and June.

Automobile production has risen on a weekly basis but still is far below a year ago. There is talk that the new auto models will be pushed to get into the market before the summer is over.

Then there is housing, which is being spurred by government and private organizations. Housing starts in April showed a gain of eight percent over March.

The textile industry has been reporting increases in orders which wholesalers thought would continue during the next few months.

Merchants, apparently made more optimistic by the rise in personal income in April, are buying summer items in the wholesale markets. Just now they are stocking up on women's summer dresses, sportswear and beachwear, according to Dun & Bradstreet. Also there have been purchases of men's tropical suits and sports shirts.

A weekly rise in car loadings drew more discussion than the fact that the loadings still are 26 percent under last year.

Also, business failures fell by 17 percent last week.

And, to many, the stock market apparently is saying that there will be a business recovery in the not too distant future.

Remona Minton, daughter of Mr. and Mrs. Douglas Minton of Dallas, has been visiting her grandparents, Mr. and Mrs. Ramsey Minton for the past month. She will be joined here by her mother, and brothers Randy and Robbie the first of June.

POOLS— CONTINUED FROM PAGE 1

to the many accomplishments of which Diboll people can be proud.

Eloise Nichols was named winner of the high school group in bathing beauty contests at Lakeside. Otha Lee Spencer won in the graduate group.

Free Tickets
Calvin Lawrence gave season tickets to the pools to all five winners in the white and colored beauty contests. No admission was charged swimmers Saturday.

Rev. Dan Smith of the First Baptist Church gave the invocation at Pleasant Grove. Cere-

monies at both pools were opened with prayer. MC Clyde Thompson apologized for the absence of Arthur Temple Jr., who was en route by air to the West Coast on business.

PONY— (Continued from Page 1)

Several other boys who played and starred with the DHS team this season were ruled too old to participate in Pony Grad play this year.

The Pony Graduate League replaces what was known as the Teener League during the 1957 season.

Coaches of the Diboll Pony Grad team are Robert Ramsey and Al (Happy) Point.

PERSONALS

Employees of the Treating Plant went to Dam B Sunday for boating and a fish fry. The men of the group went down Saturday for some fishing and the ladies joined them on Sunday for the fish fry. Those attending the outing were Mr. and Mrs. Earl Courtney and family, Paul Squyres and family, Steve Johnson and family, Thomas White and family, Red Rector, R. L. McDaniels, and Mr. and Mrs. Eddie Shaw and son.

**Hornets Slug Out
20-8 Win Saturday
Over Groveton**

Hemphill's undefeated Hornets slugged their way to their 11th straight victory of the 1958 campaign in Miller Park last Saturday afternoon. The Hornets bested Groveton, 20-8, in a sudden-death playoff game for the bi-

district championship game for both teams.

Hornet second sacker Don Rush got four for five and mates Jones and Speights got three hits each to pace Hemphill's 15-hit attack.

Righthander Jim Thomas doled out seven hits in attaining the easy victory.

Hemphill won over Hudson in Diboll's baseball district this season.

Pit Stops
BY *Johnny Boyd*

VETERAN INDIANAPOLIS DRIVER

Indianapolis Motor Speedway... Just like the song says, "Back home again in Indiana". I love Fresno, but Indianapolis has come to be my second home. You know the longest part of a race driver's life is the winter months. I was sure ready when April 28th came around and Fred DeOrion, Roy Gilhammer, and myself headed for the "Speedway". Fred is the chief mechanic on the Gerhardt Special to be driven by Johnnie Parsons, and Roy is a midget driver on the west coast as well as being a member of our Bowes "Seal Fast" pit crew.

READY TO GO

I feel real "racey" this year even though I didn't run in any midget events during the winter months. Bob Bowes, one of the co-owners of my car, didn't want me to run before the "500". I went along with this because I don't think it's worth it to run in a less important event and take a chance on missing the "500". Not that anything too bad could happen, but you never know. A broken finger, a broken arm, or a rock through the goggles is all it takes to put you on the sidelines at Indianapolis.

SOME TOUGH COMPETITION

We arrived on May 1, and the first news to greet us was that Ed Elisian had turned a lap of 139.411 mph in one of the John Zink Specials. Ed isn't assigned to the car but since Pat Flaherty, 1956 "500" winner wasn't in town yet, Ed took the car on its shakedown run. It was a terrific lap for the first day and if it's any indication, the rest of us are going to have to get our foot in it to make the starting field.

I don't expect to run near that fast on my first shakedown run on the track. I'll run the engine in around the 120 mph mark for about thirty laps, before making any serious efforts to get near the qualifying speed. My first year with George Bigmott, chief mechanic and co-owner, in 1955 I only drove the car for seven laps before I turned one at 137 mph, then after changing plugs, I turned a few laps at

140 mph. When we tore the engine down, George found that a piston had expanded and had scored a cylinder wall. Since then we have taken a little more time to work up to the faster speeds here.

As a matter of fact, last year we had a little trouble getting enough speed during early practice runs. I wasn't satisfied with the way the car was handling and asked my teammate Freddie Agabashian to take a ride to confirm. After a few laps, Freddie came in and agreed with me. George went to work making the necessary changes. On the first day of qualifications, everything went smooth. I qualified at 142.102 mph to earn a starting position in the middle of the second row next to the other Bowes "Seal Fast" Special driven by Freddie.

LOOKING 'EM OVER

It seems, as I tour the garage area, that this year there are more cars than ever that look capable of winning the race. One car that impresses me very much is the Gerhardt Special I mentioned before. The car was the same one that I drove here in 1956, but Fred DeOrion has made many changes in it. The biggest change being the engine which has now been laid over on its side similar to the one driven to Victory Lane last year by Sam Hanks. I saw the car being rebuilt in Fresno and I'm sure that Parsons will make it a top contender here the 30th.

A QUESTION MARK

One of the big questions this year is whether the winning car last year with its engine on the side was the reason Hanks was able to take home the biggest purse in the history of the Speedway, or whether the credit belongs to the heavy right foot of Sam's. This year there will be four cars with the engine on the side, so all of the car owners are waiting for the race to see if they will have to plan on new machines for 1959.

Well, George is calling so I'd better put on the crash helmet and get to work.

NO COMMENT
By JAMES W. DOUTHAT

WASHINGTON—Up and up it goes—and where it will stop nobody knows.

That, in essence, is the present story on government spending.

The situation is so acute that members of the Congressional economy bloc are warning the campaign against governmental waste and extravagance must be intensified now—tomorrow may be too late.

Their S.O.S. for immediate action is based on a highly unsatisfactory fiscal outlook highlighted by:

1. An official forecast (by Maurice H. Stans, Budget Director) that "a large deficit—in the general range of 8 to 10 billion dollars, according to present tentative estimates—is in prospect for the next year instead of the \$500 million surplus we had planned."

2. Indications that (unless the trend is reversed) Congress may approve larger appropriations than requested by President Eisenhower. Cuts have been made by Congress every year for the last 13 years.

3. The likelihood that the Treasury will ask Congress for a permanent increase in the national debt ceiling to at least \$290 billion to permit the increased deficit spending now in prospect. The permanent ceiling now is \$275 billion, but Congress recently raised it temporarily—until June 30, 1959—to \$280 billion. The all-time peak—during the Korean war—was \$300 billion.

4. An avalanche of legislative proposals by New-Fair Dealers for spending untold billions of dollars to combat the present recession. These have been estimated to aggregate as high as \$100 billion—considerably more than the total of the regular budget. Mr. Eisenhower has expressed opposition to make-work activities which could turn a temporary recession into a long-time depression.

5. Fears of further inflation

brought on by continued deficit spending and resulting in additional erosion of the purchasing power of the dollar.

These are among the reasons advanced by the economy bloc for resisting demands for unnecessary spending. They believe the nation's future prosperity would be jeopardized by adoption at the present time of irresponsible fiscal policies.

A year ago a real "grass roots" campaign developed against a proposed budget calling for the expenditure of \$71.8 billion during the present fiscal year. As a result, the budget was cut substantially and Mr. Eisenhower initiated efforts to hold spending below \$70 billion.

But last fall, while the next budget was being prepared, Russia launched its first Sputnik. Immediately there was a substantial step-up in government spending. At about the same time the first signs of the current recession began to appear. Thus, while spending increased, revenue began to fall off.

The budget submitted to Congress last January called for spending \$73.9 billion in the fiscal year starting next July 1. The prospect now, however, is (unless the economy campaign succeeds) that spending is more likely to be in the neighborhood of \$73 billion—and to reach \$80 billion the following year.

This assumes, of course, that the Administration will succeed in defeating the many radical proposals for profligate spending advanced by some members of Congress—which would make the total much higher. If necessary, the President can use his veto power over legislation approved by Congress.

Budget Director Stans gives the following advice:

"The current recession should not be allowed the stampede us into hasty, ill-considered actions which will add unnecessarily to our future burdens.

"Let's not forget that the course of our type of economy depends in the last analysis on millions of economic decisions by individuals and businesses, made freely every day. The role of government in this economic system should be to stimulate rather than to try to dominate private activity."

News - Bulletin Church Page

BIG NEWS!

The Church may not have its name blazoned across every front page, but it is big news just the same.

From infancy to old age, the Church offers many things to each and every individual.

The Church introduces human beings to God.

The Church develops man's spiritual life through experiences of worship.

The Church emphasizes the beautiful through its architecture, its services, whether ritualistic or informal, its music.

The Church develops leaders through its many activities.

The Church broadens man's outlook through its work of sending the gospel to those in far-away places.

The Church exemplifies the brotherhood of man through the welcome it extends to all who believe.

Last, and most important of all, the Church offers salvation and the assurance of eternal life for every believer.

Big news—the Church! Can you afford to miss it?

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

YOUR HOME

with
Penny Edwards

Busy homemakers are cheering the new range to table cookware trend, now that new accessories are so attractively designed as well as being utilitarian. Porcelain enamel casseroles and serving dishes come in pastel colors or deep rich tones—many with unusual designs fired right into the utensil. Colors are fade-proof even under red-heat cooking. They're also easily cleaned with just soap and water.

If you have trouble getting into those small or hard-to-reach places, a child's toy dust mop is useful. It's handy for cobwebs on ceilings, walls, crevices and corners.

Run a little salad oil or candle wax on the underside of ice trays, and they won't stick to the freezing compartment of your refrigerator.

Have a tedious dye job? Why not put the material to be dyed into your automatic washer. The solution can be kept at high temperature and the agitation of the machine will distribute the color evenly. And there's no need to worry about cleaning out the washer afterward if it's finished in porcelain enamel—no dye can penetrate the pores of the glass-hard surface.

Bible School Slated
At Pine Valley

A Vacation Bible School will be conducted from June 2 thru June 6 at the Pine Valley

Church.

Transportation will be furnished to those who wish to attend and the public is invited.

Interior Modes... by Reno

Furniture influence is strong in this new high-style lavatory-vanity by American-Standard. The gleaming china top combines counter surface and basin in a single unit, without a crevice or joint to catch dirt or mar its smooth beauty. Below, the twin-door cabinet—on tapered, brass-tipped legs—provides much-needed storage space for towels, cloths and cosmetics. Cleaning is easy—wiping with a damp cloth is enough to make the china top and satin-chrome faucets sparkle. The top comes in white and eight decorator colors; the cabinet is finished in neutral beige. Doors are equipped with magnetic catches and a special two-drawer cosmetic unit is available.

10% OF COST

The lumber used in the construction of an average home represents less than 10% of the total cost...yet the entire structure depends upon it. Can any home owner or builder afford therefore to use any lumber less than the best?

The most important part of any house is its structural framework. This is the framing lumber, hidden from view once the house is completed. It must give the house its support . . . its shape and its strength. On its quality depends the efficiency of all the house functions . . . the life of the home itself. No thinking man should allow himself to be persuaded to cheapen the structure of his home with so little to gain.

For his own protection, the prospective home owner should pay particular attention to the quality of this framing lumber. One way to get this protection is to ask your lumber dealer for Texas Grown, KILN DRIED, SPIB Grade-Marked lumber from Southern Pine Lumber Company.

The Record Rack

By DON WIER

There's one disc jockey in Chicago who doesn't worry about audience reaction . . . and who doesn't have to.

His listeners are completely taken up with him. They are literally a 'captive' audience.

He is Howell Cox, Dee Jay at the county jail.

He plays everything from rock and roll to Spanish folk music for his exclusive audience.

The music is piped around the pokey by a public address system. Cox also does a sort of man-on-the-street show, going into different cells and taping interviews.

Cox says it gives inmates a chance to air gripes, offer suggestions and give their opinions on the set-up in prison.

In addition to the music, Warden Johnson also has a panel show made up of guards, prisoners and prison officials.

"They discuss prison life, points of law and regulations," said the warden. "It's extremely popular with the inmates," he added.

Bing Crosby, who has crooned duets with most of the best girl singers during his three-decade career, will cut an album with Rosemary Clooney. It will be called "Fancy Meeting You Here."

RCA Victor has cast a side-long glance at another film actress to get her on wax. This time it's Maureen O'Hara who has been tapped for some singing. The Irish beauty will make her debut in an album to be released later this year.

Victor's subsidiary, Vik, has just kicked out a new long play

spotlighting the singing voice of movie actress Lizbeth Scott.

Here is some data on Ricky Nelson. The 17-year-old singing star is still being educated even though he's now out of high school. By agreement with his folks, Ozzie and Harriet, he puts in a couple of hours each day studying with a tutor. He drives a convertible, likes double cheeseburgers, malteds and cokes.

He goes out weekends because of the daily grind of recording and TV work.

THE WAX MUSEUM: Nine years ago hit tunes around the country were: "Forever and Ever," "Cruising Down The River," "A-You're Adorable," and Vaughn Monroe's big one, "Riders In The Sky."

Just four years ago the nation was singing to Perry Como's "Wanted." Another smash hit was "Cross Over The Bridge," and the movie oscar winner by Frank Sinatra "Three Coins In The Fountain."

Two years ago the most played discs were: "Heartbreak Hotel," "Hot Diggity," "Poor People of Paris" and "Que Sera, Sera."

And, our featured tunes at KSPL this week are: "Hillside In Scotland" by Debbie Reynolds; "Ding Dong" and "Since You Went Away To School" by McGuire Sisters; "Cha-Hua-Hua" by The Pets; "Singing Hills" by Billy Vaughn; "I'm A Runaway" by Tab Hunter; "Purple People Eater" by Sheb Wooley; "Joshua" by Laurie London; "Till We're Engaged" by Guy Mitchell and "No, No, No" by Tony Perkins.

The Town Crier

Your reporter has found that the controversy over the rather lavish gifts recently bestowed on two of the nation's favorite glamour girls by Dominican playboy General Rafael Trujillo, at least a little on the funny side particularly in view of the fact that it has become almost a Congressional matter.

One of the two ladies, Zsa Zsa Gabor, has turned it into a big part of her new night club act that she is doing with former burlesque comic, Joey Adams. La Belle Gabor says: "In school I was taught that money isn't everything and that happiness counts," she continues, "as soon as mother found this out she made me change schools."

Her mother, Jolie Gabor, also recently married, is simply an older version of her three lovely to-look-at daughters.

Joey Adams asks Zsa Zsa, "Did you approve of your mother getting married?" Zsa Zsa replies, "I think all mothers should be married . . ."

I think that the 'Big City' newspaper treatment of the life and loves of Princess Margaret, have also assumed comic proportions at this late date and should be written to read: "Will Meg marry the dashing handsome group Captain Townsend? Will

the queen approve? Will happiness finally come to Townsend and Meg? Tune in tomorrow!"

And now, the changing times. Robert Stack and Erin O'Brien are making a new picture in Hollywood that has to do with John Paul Jones. It seems that one of the ships in the John Paul Jones armada was called "The John." Things being what they are today, for the picture they have renamed the ship "The Betsy."

Incidentally, the now world-famous Van Cliburn, winner of the International Tchaikovsky Piano Competition in Moscow recently, will be presented in concert at the Music Hall in Houston next November 25.

This is a special concert with the Houston Symphony under the baton of Ezra Rachlin. Mail order only are now being accepted and filled in the order of receipt. Prices are as follows: Orchestra: \$3, \$4 and \$4.50; Dress Circle: \$2.50, \$3 \$3.50 and \$4.50; Balcony: \$2, \$3 and \$4; Box Seats: \$6.

Earl Courtney killed an 18" Coral snake just outside the yard fence around his father's home Sunday. His father, Hubert Courtney, lives on Farm Road 58.

OPEN HOUSE

From 1-5 p.m. this Saturday May 31

This Modern Two-Bedroom-Den House has just been completed in the Pinedale Addition by Billy Brown. You will be amazed with all its outstanding features and thoroughly impressed with the expert craftsmanship and workmanship which make it a "Home Sweet Home" that will last a lifetime!

This home is in the \$13,500 price range. Contractor Billy Brown, who is experienced in finishing commercial and business houses, offices, large and small homes alike, can build on YOUR lot to YOUR specifications, and to YOUR guaranteed satisfaction! The home you will see this Saturday afternoon in Pinedale is also not a model. Mr. Brown and his family moved into the house this week in order that visitors could see the dwelling as a real home and not just a showplace!

SOME OUTSTANDING FEATURES OF THIS HOME

1. Complete, large two bedroom home, with living room-dining room combination, kitchen-den combination, beautiful bath and two-car carport with extra large storage space and utility room.
2. Rock-face brick exterior. Full insulation in walls and ceiling. Carpeted throughout except for kitchen and den. Ceramic tile dressing located in exquisite bathroom.
3. Kitchen and den are finished in most attractive paneling to be found in this section of Texas.
4. Other features include: Central heating, aluminum windows, attic fan.
5. And looking to the future: This home has been constructed on a slab, which makes for a longer-lasting building and assures you of more for your money. This Billy Brown home has been so arranged that air-conditioning can easily be added in future years . . . when your budget has room for it!

WHERE SHOULD YOUR LOT BE LOCATED?

Billy Brown can build to your specifications and on any lot you desire. Or, he can show you several of his own well-drained lots in Diboll's new Fair Acres Addition, which are now available on an FHA or conventional-type loan.

Or, you say, I'll need someone to draw up some plans and make suggestions. Billy Brown can handle that too. Call him today and you'll see how easy it is to own your own home!

CAN YOU AFFORD THIS MODERN HOME?

Absolutely!

Or at least one just like it. For contractor Billy Brown is in business to build good homes rapidly and without waste of time, thus he can pass many dollars along to you in savings.

The home that you can see this Saturday is not a dream home either. It has been moved into and is now being lived in by Mr. Brown and his family. In mentioning this, it is contractor Brown's wish to let you know that he CAN build a dream home . . . OR he can construct smaller, comfortable homes for as little as \$5,000.

This large, modern living quarters has been built from start to finish in exactly 25 working days! This is important too, for no one likes to wait and wait and wait forever for completion of their new home. Yet on the other hand, Mr. Brown and his crew never get in such a hurry that they cannot make minor or major changes in your desired plans!

In short, Billy Brown can build you any size building at any price and in a minimum of time!

HOW MUCH WOULD A SIMILAR HOME COST ME?

This particular Brown-Built home is in the \$13,500 price range. It sets on an 111x150 foot lot in Pinedale Addition. This home, and others owned by Mr. Brown in Fair Acres, can now be purchased with an FHA loan for mineral rights have been granted! Conventional loans are also available. Down payments on Brown-built homes are the lowest possible. Logically speaking, he had rather sell homes quickly (thus cheaper) . . . than have them unsold for a long period of time.

Yes, hurry this Saturday to see modern home-building at its best. Open House will be held at Billy Brown's new home in the Pinedale Addition in Diboll.

This new home is located just behind Mrs. J. R. Dale home, on the road located in front of the new swimming pool.

Open House beginning at 1-5 p.m. And won't you come by?

"It is always our aim to build what you want, where you want it, at a price WE would like YOU to offer us."

When driving around town Saturday afternoon, come by and see our model home.
