

The Foundry Roundup

SEPTEMBER, 1955

Contest Prize Winners Announced

THE Vacation Snapshot Contest is over and now is the time to announce the winners.

First Prize winner is Tom H. Duke, employee of the Machine Shop, second shift. Tom, who has 10 years of service with the Company, entered a snapshot made by his wife of him in the Yellowstone National Park in July. The picture shows Tom trying to out-distance a black bear who decided Tom was getting too friendly with one of her cubs.

The winning picture shows the tall fir trees that are typical of that region of the United States. It also shows how the bears stop the tourist traffic when they make their appearance.

The award for the First Prize was \$15.

W. J. Hanson, watchman at Gate 7, won Second Prize of \$10 with his entry showing a rocky descent from Mt. Lemon in Arizona. Mr. and Mrs. Hanson together with their neighbors, Mr. and Mrs. Ellis Kessinger, visited Arizona and Southern California. Shown in the picture with Mr.

TOM DUKE makes hasty retreat

Hanson are Mr. Kessinger and W. J. Hanson, Jr., who is stationed in Tucson with the U. S. Air Force. Hanson, who has been employed with the Lufkin Foundry for 27 years, said they did quite a lot of mountain climbing during their 4,000-mile trip.

Third Prize of \$5 was won by a snapshot entered by Charles Starrett, Second Shift Machine Shop employee. The snapshot, taken by his mother, shows Charles and Mrs. Starrett beside an old bell on the State Capitol grounds in Cheyenne, Wyoming.

Employed by Lufkin Foundry in October, 1941, Starrett is quite a camera fan, and he has many pictures from vacations of the past. He and his wife usually take a traveling vacation, seeing different parts of the country. He reports that one of the oddities of the Wyoming capitol building is its gold-leafed dome which is a brilliant sight to see from many miles away.

Since the snapshots entered were so nearly alike in quality, it was decided to award a fourth and fifth prize. Fourth Prize of \$3 was won by H. H. Parrish, Jr., employee of the Machine Shop, second shift. Herman, who has been with the Company for five years, made the picture of his children on the steps of the State Capitol in Austin, Texas. The picture was made July 3, with a Kodak Brownie, and the children seem to be enjoying the event to the fullest.

A snapshot entered by Harold B. Weeks, employee in the Engine Building, won Fifth Prize of \$2. The picture he entered shows his four-year-old daughter, Kathy Sue, with her first catch, and she's a mighty proud little fisherman.

Honorable Mention Awards of \$1 each were won by snapshots entered by Virgil Havard, Trailer Division employee; Fred Griffin, Engineering Dept.; J. P. Laird, Welding Shop, second shift; George Freeman, Pipe House employee; and Arvil Bruner, Purchasing Dept.

HANSON makes a rocky descent

STARRETT'S in Cheyenne, Wyo.

other winning snapshots

FOURTH PRIZE WINNER. This snapshot, taken by H. H. Parrish, Jr., shows his children on the steps of the capital building of Texas. Left to right: Betty Ann, 10, Jayson, 2½, and Donald, 8.

FIFTH PRIZE WINNER. The title of this picture is "First Try" and it's not so bad at that. Harold B. Weeks took this shot of his 4-year-old daughter, Kathy Sue.

J. P. LAIRD took this picture of his nephew, Jack Parrott, 11, at Boykin Springs. A stand of young timber is in the background.

CHERYL LYNN FREEMAN, daughter of George Freeman, took this snapshot of Looking Glass Falls in Pasgah National Forest in North Carolina.

FRED GRIFFIN, JR., whose dad works in the Engineering Dept., takes a cautious step toward the Gulf of Mexico at Gulfport, Mississippi.

TERESA LEA HAVARD, two-year-old daughter of Virgil Havard, Trailer Division employee, is ready for a big fishing trip. And she has the necessary equipment to make the day successful.

CAROLYN JOYCE BRUNER, 4, daughter of Arvil Bruner, Purchasing Dept., is busy feeding her new pet. The kid is taking goat's milk via a baby bottle.

Community Chest Drive Begins

THIS is the time of the year when each of us has the opportunity to make our country a better place in which to live.

It's the time when we who have been fortunate for the past 12 months have a chance to show our gratitude for our good fortune and our concern for those who haven't been so lucky.

This is Community Chest time. A time when you can let your conscience be your guide—and know that you'll be doing your part.

Each year the Chest asks for your help. It needs your dollars to finance the agencies who guide and train our youngsters . . . who care for our sick and needy . . . who help keep our town safe from contagious disease . . . who teach our children water safety . . . who offer a guiding light to shelter and aid . . . who do the million little things for us to make Angelina County a friendly, safe, healthy and joyous place in which to rear our families.

We can't do all these things by ourselves; it takes organized charity and youth-building agencies to see that the money is spent wisely and where it is most needed.

Your dollars answer this call. Your dollars are your way of saying you care.

There are many employees throughout this plant who volunteer their services each year to ask you for your support of this campaign. The Lufkin Foundry and Machine Company is proud of these employees and their desire to be of service. And the Company is proud indeed of the record of

generous giving by all employees. It is good to know that we have employees who feel kindly toward their fellow human beings and are concerned about their welfare.

Whatever amount of money that is contributed by the employees of this Company plus whatever is given by the Company itself, ten per cent of this amount is set aside to be used for emergency relief for employees of this Company.

This sum of money is looked after by a Committee made up of representative employees from throughout the plant. Whenever tragedy or misfortune strikes within our employee family, help can be secured immediately from this fund. In a practical sort of way, we are taking care of our own.

We are hopeful that this campaign will be our most successful. The budget to be raised is the largest ever set. But the work of the 10 agencies in the Chest is more extensive and thorough than ever before. If each employee gives something—as much as he can afford—we will be doing more than our share in helping to meet the goal.

When you are approached by one of our employee volunteer workers, just remember that whatever you give will be divided into 10 parts for the 10 agencies. And that ten per cent of what you give will be retained in a fund for use right here in our own plant.

Let's adopt this motto: "Whatever the amount, everybody gives something."

Think This Over

SUPPOSE someone were to give you a bottle containing 300 pills, all exactly alike. He tells you that one of these pills is deadly poison, 29 of them will cause violent illness, and the rest are harmless.

How much would he have to pay you to take one of the pills?

Nothing could induce you to take such a risk.

Yet, statistics show that for every 300 accidents, one will result in death, 29 will cause disability, and the rest will be harmless. In other words, when you take an unnecessary chance that may result in an accident, it's the same as taking one of the pills from the bottle; and you do it for nothing. The only possible reward you can get is the saving of a few seconds' time or a few ounces of energy.

So, the next time you are tempted to take an unnecessary risk, remember the story of the 300 pills in the bottle. Put the pill back in the bottle. Take your time, and do it the safe way!

—THE PROFITAKER

"My goodness!" the woman exclaimed. "Doesn't that little boy swear terribly?"

"Yes'm, he does," replied another slightly older youngster. "He knows the words o.k., but he don't put no feelin' into 'em."

Skinny One: "Why is it you fat fellows are always so good-natured?"

Fat One: "We have to be. We can't run or fight."

"Father, can my boy friend replace your business partner who died this morning?"

"It's all right with me, if you can arrange it with the undertaker."

Son: What's puppy love?

Father: Just a prelude to a dog's life.

Jones: "Well, how are you getting on in your new eight-room house?"

Smith: "Oh, not so badly. We furnished one of the bedrooms by collecting soap coupons."

Jones: "Didn't you furnish the other seven rooms?"

Smith: "We can't. They're full of soap."

"Having the biggest screen in the block last summer was fine, but now it's time we trade it in on a smaller one."

Ways With a Waffle

HOW do we love the waffle? Let us quote the ways! We love them for breakfast—with syrup and a slice of bacon; for lunch—and best of all, as a dinner dessert!

There are all sorts of wonderful waffle desserts, and once you have foolproof basic recipe, you're well on your way. Here's a recipe that is both delicate of texture and sturdily crisp. It won't wilt on you, and yet it melts in your mouth. The secret? It's yeast-raised!

YEAST-RAISED WAFFLES

- 1½ cups milk
- 1 tablespoon sugar
- 1 tablespoon shortening
- 1 teaspoon salt
- ½ cup warm (not hot) water
- 1 package active dry yeast
- 2 eggs, well beaten
- 2½ cups sifted enriched flour

Scald milk; blend in sugar, shortening and salt. Cool to lukewarm. Measure warm, not hot, water into large mixing bowl. Sprinkle in yeast; stir until dissolved. Add lukewarm milk mixture. Stir in beaten eggs. Add flour; beat until smooth. Cover with a clean towel. Let rise in a warm place, free from draft, about 40 min-

utes or until doubled in bulk. Stir down. Bake in hot waffle iron until golden brown.

Variations: For the fudge fans in your house, add one-fourth cup sugar; fold two squares melted unsweetened chocolate, and one cup of chopped pecans into the batter.

For those who love the tart sweetness of a piping hot fruit dessert, add one cup of blueberries to the batter.

For those who love sugar and spice, add one-half teaspoon each of cinnamon and nutmeg; add one-fourth teaspoon vanilla to the sugar in the recipe.

Finally, for those who love mysteries, add three-fourths cup thinly sliced bananas and one-half cup shredded coconut. The result is subtle and delicious. All of these take kindly to butter and confectioners' sugar, or add syrup to your taste!

The husband was curious. "Why do you weep and sniffle at a movie over the imaginary woes of people you never met?"

The wife replied, "The same reason you scream and yell when a man you don't know slides into second base."

CROSS OUT ALL ODD NUMBERS FOR NAME OF ANIMAL

Modern youngsters are becoming wiser. Said a little boy to his mother: "If the Lord gives us our daily bread, and Santa brings Christmas, and storks bring babies, what's the use of having daddy around?"

Nothing is funny when you're hungry or your feet hurt.

Here is something to think about. Where do those attending a nudist convention tuck their napkins?

"Does yo' take this woman for yo' lawfully wedded wife?" asked the colored parson, glancing at the diminutive, water-eyed, bowlegged bridegroom, who stood beside 210 pounds of feminine assurance.

"Ah takes nothin'," responded the groom. "Ah's bein' tooked."

Here and There Around the Plant

THERE were many good photographs entered in the Snapshot Contest sponsored by THE ROUNDUP. We're just sorry they all couldn't win first prize.

Several employees had many pictures from which to choose their entry. And all of them were good. So, we are publishing some of the pictures which were not entered in the contest, with a little story of the trip on which the picture was made.

G. C. "Cowboy" Starrett, his wife and parents took a nice trip during his vacation. They traveled 3300 miles in nine days, visiting Palo Duro Canyon near Amarillo; Taos, New Mexico; Colorado Springs, Cripple Creek, the Royal Gorge, Denver; Cheyenne, Wyoming; Syracuse, Kansas; and Dodge City, Kansas.

One of the highlights of their trip was a visit in the Garden of the Gods outside Colorado Springs. Charles explained that this Garden was once the bed of a great inland sea in the past ages, and was the tribal meeting place of Indians. It covers some 400 acres with majestic Pikes Peak as a backdrop. This natural cathedral contains

scores of spectacular formations including Great Cathedral Rock which is in the background of one of the pictures Charles brought us. Other famous formations include Steamboat and Balanced Rocks, Kissing Camels, Ruins of Montezuma Temple and the Mushrooms.

Another place that interested the Starretts was Taos, New Mexico. One of the pictures printed here shows Charles at Dodge City standing beside one of the typically inscribed tombstones.

J. P. Laird, second shift Welding Shop employee, got a good picture of the stand of fine Pine timber at Boykin Springs. J. P. is quite interested in this part of the country, because it's his old stomping grounds where he was reared. He likes timber and timber-raising methods are almost like a hobby to him. His picture is published in this issue of THE ROUNDUP.

W. J. Hanson, watchman at Gate 7, took a 4,000-mile trip across New Mexico, Arizona, and into Southern California. He and Mrs. Hanson and

VISITING the Garden of Gods

Mr. and Mrs. Ellis Kessinger, their neighbors, went first to Tucson, Arizona to see W. J. Hanson, Jr., who is stationed there with the Army Air Force. When it was learned that their son could get only a two-day pass, they were forced to change their plans,

CHARLES STARRETT stands beside a tombstone engraved in a western flavor near Dodge City, Kansas.

THIS beautiful stand of Pine timber was photographed by J. P. Laird, Welding Shop Employee. It is near Boykin Springs, where Laird grew up.

MR. AND MRS. W. J. Hanson, his son and daughter-in-law sit atop Mt. Lemon near Tucson, Arizona. Young Hanson is in the Air Force there.

for they had thought they would go up into the northern portion of California. They visited in San Diego, saw the sights along the waterfront, and visited the zoo there. Mr. Hanson says it's one of the largest zoos in the country and well-worth a person's time to see it.

At Tucson, Mr. Hanson tried his mountain-climbing skill. They were atop Mt. Lemon which is about 7,000 to 8,000 feet above sea level, and he got up on a boulder about 15 feet high. Seems everybody thought he was going to fall when he started down but him.

They made a quick trip, leaving here August 22 and returning August 30, but Mr. Hanson explains that easily—they went in a 1955 Ford. But for an interesting sidelight on the speed they traveled, ask Mr. Hanson what type of fellows the State Highway Patrolmen are.

MRS. Irma May Chappell, wife of Roy Chappell, Foundry employee, re-

THERE'S nothing quite so good as watermelon eaten by hand

cently returned from a five-week vacation. She visited Yellowstone National Park, where she made the picture of the sitting bear published in this issue. She went then to Port Angeles, Washington, for a visit with relatives who were harvesting 500 acres of wheat. She saw the famed Mt. Rainier and played in the snow.

From there, she sailed to Vancouver, British Columbia, and drove back to Portland, Oregon, to visit a sister. Next, she toured the State of California, seeing the Red Wood trees, Hollywood and Knott's Berry Farm. She also saw the T.V. program, "Queen for a Day." In commenting on this program, Mrs. Chappell said, "I was having such a good time and enjoying my vacation so much, I didn't have a tear-drop story to tell, so I didn't win anything on the program!"

She returned to Lufkin via Nevada, Arizona and New Mexico. Although she had a wonderful time, she said she was mighty glad to see Texas again.

PUBLISHED in this issue is a picture of the three children of Bobby H. Tucker, second shift Lathe shop employee, digging into a ripe watermelon. They are completely unaware of the camera—but who cares about a camera when there's watermelon to be eaten?

MRS. T. H. Duke wasn't able to get the big bear that was after her husband in the picture which he entered in the contest. But she did get it seconds after Tom reached the car. We thought you might like to see it, so we're carrying it in this issue.

THE Hanson's and Kessinger's are just visiting—not staying

FORM 3547 REQUESTED

A young chap was told he could have a job in a clothing store if he sold a certain suit. And it was a dilly—light purple with white stripes and red dots. But the applicant said: "O.K. It's a deal."

About an hour later the manager saw him come running, his pants torn, blood on his hands and a wild look in his eye. But he panted out: "I sold that suit!"

"But you seem to have encountered quite a lot of customer resistance," the manager said.

"No, the customer was easy," the new clerk replied, "but I sure had a bad time with that seeing eye dog!"

What this country needs is a medium-priced power mower than can be operated from an air-conditioned room.

You're getting along in years, brother, when it takes you twice as long to rest and half as long to get tired.

Pete: "I'm going to get a divorce; my wife hasn't spoken to me for six months."

Jake: "Better think twice; wives like that are hard to find."

A prim little old lady was telling her friend about her awful shock upon finding two empty whiskey bottles in her garbage can.

"You can imagine my embarrassment," she said. "I got them out fast, because I didn't want the garbage man to think I drink."

"What did you do with them?" asked her friend.

"Well, the preacher lives next door," was the reply, "so I put them in his can. Everybody knows he doesn't drink."

Angry widow (after learning husband had left her nothing): "I want you to take 'Rest in Peace' off that tombstone I ordered yesterday."

Engraver: "I can't take anything off, lady, but I can add something else."

Widow: "All right. Add 'Till We Meet Again'."

"Aren't you ashamed to have your wife doing such menial labor to support you?" asked the stern judge.

"Yes, I am, your Honor, but what can I do? She's not bright enough to do anything else."

After a long, boring evening, the young man finally succeeded in stealing a goodnight kiss from his young lady companion.

"That's your reward for being a gentleman," the girl murmured.

"Reward? My eye!" scowled the annoyed young man. "That's just workman's compensation!"

Fan: "See that big fellow playing fullback. I think he'll be our best man next year."

Coed: "Oh, darling, this is so sudden!"

A small-time salesman treated himself to a ride on a deluxe streamliner on a trip from Chicago to New York. Excited by the train's luxuries, he went back to the club car where several big business men were talking about economic conditions.

"It was a bad week," he heard one say, "We netted only \$100,000."

"Well, things were pretty good for us," said another. "Wheat was hot and we cleared \$300,000."

The small-time salesman listened in awe as each man spoke of six-figure profits. Then all eyes turned his way and one of them asked, "How's your business?"

"Not bad," he shrugged. "Last week greens were off half a million, but yellows were up a million and reds up five million."

Eyebrows raised in wonder, and one of the financiers respectfully asked, "what is your business?"

"Me?" said the little fellow. "I sell jellybeans."

"How come your sister married a half-wit?"

"She's such an incurable bargain hunter that she couldn't resist taking anything that was 50 per cent off."

Husband: Maybe we can figure out what the problem is.

Wife: I know what the problem is; it's having too much month left over at the end of the money.

"How would you like your egg served, sir?"

"Is there any difference in price?"

"None whatever, sir."

"Then serve it on a thick slice of ham."

Mrs. Lundy: "And who broke your window, dearie?"

Mrs. Grundy: "That good-for-nothing-husband of mine. He ducked when I threw a pitcher at him last night."

"What's your complaint against the banking business?"

"They lend you all the money you want as long as you can prove you don't need it."
