

The Foundry Roundup

MARCH, 1967

New Officers for **LUFKIN FOUNDRY**

WALTER W. TROUT was named to the newly created position of Chairman of the Board and Chief Executive Officer and Robert L. Poland was elected President of the Company by the Board of Directors at their annual meeting held March 21, 1967.

As the Company grows larger, the responsibilities of the Chief Executive Officer increase and this change was made so that the Chief Executive Officer can be relieved of a good portion of this burden, Mr. Trout pointed out.

Mr. Trout has served as President of the Company since 1948, after having served as Acting President the preceding year following the death of W. C. Trout in April, 1947.

Bob Poland, 47, was named Assistant to the President and Director by the Board of Directors in March, 1966. He was employed by Lufkin Foundry and Machine Company December 1, 1945, as a design engineer and was Chief of Commercial and Marine Gear Engineering before being named Assistant to the President and Director.

Born in Manning, Texas, May 4, 1919, Bob was graduated from Huntington High school and received his Bachelor of Science degree in Mechanical Engineering in 1942 from Texas A & M University. Commissioned as a Second Lieutenant, he joined the United States Army in which he served until 1945. He participated in five campaigns in the European Theater during World War II and was discharged with the rank of Major.

Bob has been active in civic and community affairs for many years as well as in professional and industrial circles. Currently, he is First Vice President of the Chamber of Commerce, member of the Board of Directors of the Angelina County Chapter of American Red Cross, Director of the Angelina County Community Chest, Trustee of Angelina Junior College, member of the South Texas Regional Export Council, member of the Masonic Lodge and the Lions club, and member and past Board Chairman of the First Christian church. He has served several years as a member of the local Selective Service Board.

He is a Registered Professional Engineer, and a member and past president of the Pineywoods Chap-

**WALTER W. TROUT, Chairman of the Board
and Chief Executive Officer**

ROBERT L. POLAND, President

ter of the Texas Society of Professional Engineers, and member of the National Society of Professional Engineers.

Bob was married to Adell Slover in 1945. They have four children: Robert, Jr., a sophomore at Blinn College in Brenham; Charles, senior at Lufkin High school and president of the senior class; John, junior at Lufkin High school and president of the junior class; and Joy Dell, a sixth grader at Kurth Elementary school.

THE LADIES Star Left . . . The star is formed, left, counter-clockwise, Nancy Hamilton, Peggy Perkins, Marcelene Pennington, and Elsa Smith, not visible.

Looking on are the fellows from left to right, counter-clockwise, Elie Smith, Bill Pennington, Charley Hamilton and Joe Perkins.

All Join Hands - We're Gone Again!

"Honor your partner; Honor your corner; Swing ole ma . . ." is a familiar sound coming from caller, Nathan Hale of Oakwood, Texas, when the Pine Squares Square Dance Club of Lufkin get together. With a swish of full skirts and petticoats and a shuffle of feet they're all off for a fun-filled evening of square dancing.

The Pine Squares were organized in October of 1965, by Kelley Griffin, Mill Supplies salesman; and two Lufkin men, Harold Lovett and John Sharp. Since that time many Lufkin people have become members of the Pine Squares. Several of these couples are Lufkin Foundry employees.

The Pine Squares meet every Thursday night at 7:30 in the Citizen's Band Hall, which was the old American Legion Hall on the Houston Highway. The Citizen's Band Radio Club, the Pine Squares and the German Club all use the building now for their individual activities.

New square dance classes started on March 16, and will continue for a period of 15 lessons. Anyone is eligible to attend for a fee of \$1.00 per lesson. Upon completing the course a graduation dance will be held. The latest graduates will be honored with a dance on April 22.

In addition to the weekly dances, the members look forward to the

monthly dances held on the second Friday and the fourth Saturday of each month. They all enjoy participating in square dances held all over East Texas.

Those Lufkin Foundry employees who are members of the Pine Squares are: Joan Griffin, Personnel, and Kelley; Martha Hopson, First Aid nurse, and her husband, Ed; Joe Perkins, Insurance Officer, and his wife, Peggy; Bill Pennington, Welding & Structural Shop foreman, and his wife, Marcelene; Elie Smith, Trailer Division, and his wife, Elsa; A. G. Colburn, Trailer Division shop foreman, and his wife, Charlie; Charley Hamilton, Trailer

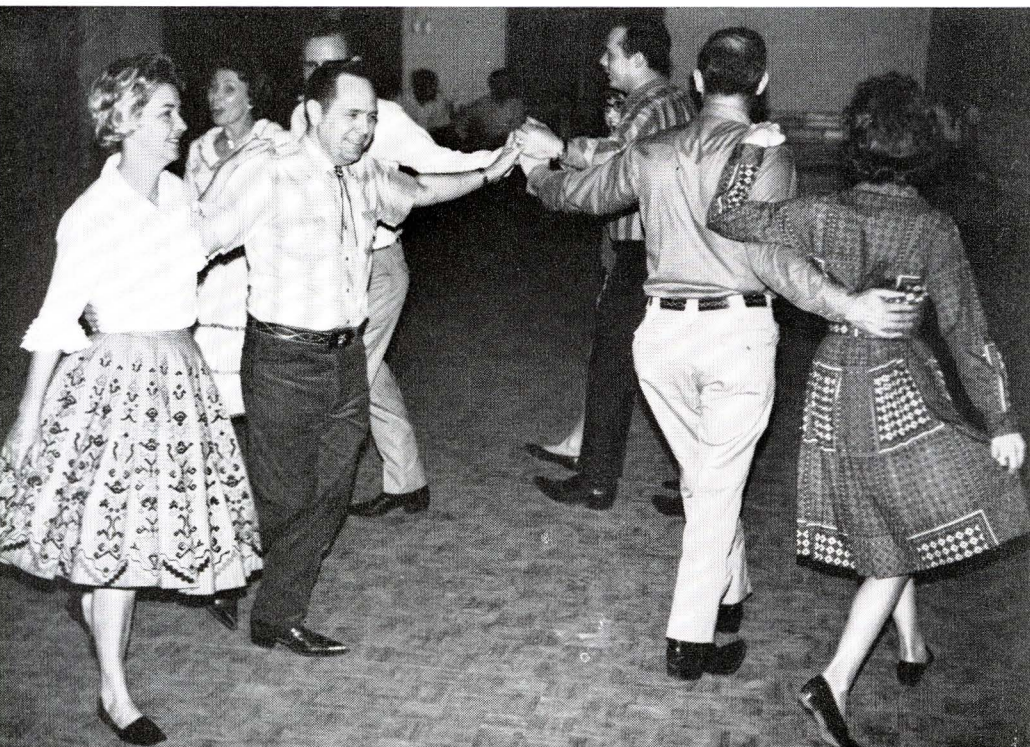

THE OFFICERS and their friends listen to Elie Smith tell about an approaching dance. Left to right: Bill Pennington, Ed Hopson, Nathan Hale, Mary Payne, Martha Hopson, Hershel Payne, Joe Perkins, Peggy Perkins, and Elie Smith.

Parts Department, and his wife, Nancy; Wayne Wimp, Trailer Division, and his wife, Mary; Kent Bivin, Welding and Structural Shop, and his wife, Nell; and Mary Payne, Order Department, and her husband, Hershel.

Officers of the Pine Squares are: Ed Hopson, president; Hershel Payne,

vice president; Joan Griffin, secretary; Peggy Perkins, reporter; Bill Pennington, treasurer; and Elie Smith and Harold Lovett, directors.

So whether the call is "Join hands and circle left" or "Circle up eight" the Pine Squares are far from being square when it comes to square dancing.

THE HAPPY Square dancers in this picture are, from the left, counter-clockwise. Mary and Hershel Payne, Fred and Honorah Jacobs, Kent and Nell Bivin, and Martha and Ed Hopson.

Shop Talk

CONGRATULATIONS to Mr. and Mrs. JOHN BOULWARE on the arrival of a new baby boy. The proud papa works in the Trailer Division, second shift.

We would like to express our sympathy to SMITHIE REEVES whose mother died recently. Smithie works in the Machine Shop, first shift.

TOM CROWDER our oilfield salesman in the Kilgore branch sent the following to us:

IT'S ALL IN THE STATE OF MIND

If you think you're beaten, then you are.
If you think you dare not, you don't.

If you'd like to win, but think you can't.
It's almost a cinch you won't.

If you think you'll lose, you're lost
For out in the world you find,

Success begins with a fellow's will:
It's all in the state of mind.

Full many a race is lost
Ere ever a step is run:

And many a coward fails
Ere ever his work begun.

Think big, and your deeds will grow;
Think small, and you'll fall behind;

Think that you can, and you will.
It's all in the state of mind.

If you think you're outclassed, you are:
You've got to think high to rise.

You've got to be sure of yourself before
You can ever win a prize.

Life's battles don't always go
To the stronger or faster man.

But soon or late the man who wins
Is the fellow who thinks he can.

Author anonymous

AIC Charles H. Thompson, son of C. A. THOMPSON, Trailer Division, was selected as airman of the month for February at Reese Air Force Base. He is assigned to the aerospace ground equipment section in the Field Main-

AIRMAN of The Month . . . A1C Charles H. Thompson is presented a certificate and other awards by Colonel Ernest T. Cragg, wing commander at Reese Air Force Base.

baby girl at their house. The new father is employed in the Machine Shop, first shift.

It is our understanding that MAURICE MALONE, Welding and Structural Shop, has acquired a new name. All we know is that the fellows call him "Tiger" now.

Congratulations to Mr. and Mrs. CLARENCE V. MILLER on the arrival of Mikki Lynn. The new father works in the Machine Shop, second shift. The happy grandfather is FORD RODDAM, Machine Shop.

The CHARLES PETREE's are the proud parents of a new baby. Charles works in the Welding and Structural Shop, 1st shift.

Congratulations to Mr. and Mrs. SCOTT MCGOUGH on the arrival of a baby boy. Scott works in Production Control.

tenance Squadron. He was honored at a wing staff meeting and received awards from the base, city of Lubbock and Lubbock Chamber of Commerce.

Airman Thompson, who has been in service since May, 1962 is a graduate of Lufkin High School and has completed the Extension Course Institute course in advanced vehicle maintenance. He also completed the aerospace ground equipment training at Chanute AFB and 20-hour course in on-the-job training trainer.

He served a tour in Vietnam, arriving back at Reese last August.

In recommending him, his commander, Major Ralph E. Weisman said, "Airman Thompson has demonstrated outstanding performance in maintenance, service and inspection and aircraft towing as well.

"He is now performing as a troubleshooter and inspector on incoming and outgoing equipment for maintenance malfunctions and performing periodic inspections."

Airman Thompson also was praised for performing additional duty as well, including service as barracks chief, fire warden and ground safety representative for his barracks.

We would like to extend our sympathy to the family of JOHNNIE POWELL

who passed away recently. Johnnie was a retired employee of the Welding and Structural Shop. He came to work for the company in July, 1933, and he retired in April of 1963.

Mr. and Mrs. BILL SIDES are the happy parents of a baby girl born March 2. Bill is employed in the Assembly and Shipping Department.

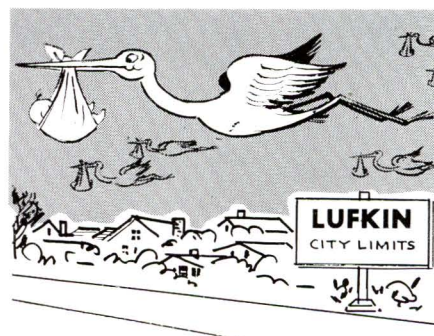

Best wishes to newly-wed H. C. WALKER and his bride, the former Miss Brenda Jackson, on their recent marriage. The bridegroom works in the Trailer Division Warehouse, first shift.

Congratulations to Mr. and Mrs. DICK COLLMORGEN on the arrival of a baby boy. Dick works in the Electrical Department, first shift.

We extend our sympathy to J. R. RIDGEWAY whose mother-in-law recently passed away. J. R. works in the Foundry Department, Core Room, first shift.

It's good to see SAMMIE LEE DENMAN back on the job following an extensive illness. Sammie works in the Lathe Shop, first shift.

Mr. and Mrs. DON MAYO have a new

Congratulations to Mr. and Mrs. VERNON JOHNSON on the arrival of a baby boy. Vernon works in the Foundry Department, second shift.

The W. G. WILLIAMS' have a new baby boy at their house. Willie works in the Trailer Division, second shift.

We thought the following taken from the booklet, CHEER, was worth passing along.

All men, no matter how big, make mistakes. But history teaches us that big men refuse to falter because of mistakes. Henry Ford forgot to put a reverse gear in his first automobile. Edison once spent over two million dollars on an invention which proved of little value.

The man who makes no mistakes lacks boldness and the spirit of adventure.

ture. He is the one who never tries anything new; he is the brake on the wheels of progress. So, don't spend your time regretting mistakes, but get up and hit the line twice as hard. You'll never succeed beyond the mistake to which you are willing to surrender. Remember, a mistake becomes an error only when nothing is done to correct it.

Our congratulations also go to Mr. and Mrs. ROGER RUSSELL on the arrival of a new baby. Roger works in the Tool Room, first shift.

Did you know that a good salesman is the fellow who can convince his wife that she looks fat in a fur coat!

The Lufkin Foundry bowling team composed of LEE BURNETT, Accounting; BOBBY SPELLS, Engineering; AL MALLONEE, Industrial Engineering; GEORGE HAYGOOD, Lathe Shop; FRANK RUDROW, Engineering; KENT BIVIN, Welding and Structural Shop; JAMES CARLILE, Welding and Structural Shop; CHARLEY HAMILTON, Trailer Parts Department; ZACK FENLEY, Pipe House; and Stacey Burnett, son of Lee Burnett, will attend the Texas State Bowling Tournament in Waco April 8. Good Luck, boys.

We would like to express our sympathy to GENE TATE, Sales Department, whose father recently passed away.

From Washington comes this word. What is the role of the individual in today's planned society? Is his function merely to fit a pre-planned slot in the economic model—or is he free to fulfill some aspirations he himself chooses?

These questions recently were raised by Dean Charles C. Abbott of the University of Virginia Graduate School

of Business Administration.

Dean Abbott asks: "If we do have the basis for an economically planned society—what kind of society should it be?"

Would there be a place in the planned society for the frontiersman of 200 years ago? Would the Mormons be allowed? What would be the role assigned to the '49ers, the plantation builders, the cowboys or wildcat oil drillers? Would there be a slot for the Henry Fords or the Wright brothers, or would they be confined to activities defined by an economic planning committee that channels effort only into those projects with proven usefulness?

Taking present-day planning situation as an indication, a candid answer has to be—probably not. A planned society could neither permit such groups, or accommodate them within a preconceived plan.

How would a planned society motivate the du Ponts, the Daniel Boones, the Billy Sundays? In all probability these turbulent boatrockers would not be allowed.

Could any group of planners conceive and operate New York City? Compare the Post Office and its annual deficit with the privately owned and operated telephone system, paying a profit to its thousands of investors.

This is not to say that a society based on individual freedom and initiative is not without its faults but, as Dean Abbott succinctly summed up in his remarks, reprinted in the Chamber of Commerce of the United State's WASHINGTON REPORT:

"Freedom to choose is the essential freedom, whether in politics, religion, management of one's personal affairs or the market place."

When we lose the freedom to choose—we have lost America.

1. Thou shalt cultivate a sense of humor, and remember that much gloom has been created by those who take life too seriously.

2. Thou shalt not despise thy body, but develop it for strength and beauty. Eat wholesome food, exercise regularly and take plenty of sleep.

3. Thou shalt have a dominating, worthwhile purpose in life, and allow nothing to turn thee from its fulfillment.

4. Thou shalt look upon thy job as the most important thing in the world, and strive ever to do it perfectly.

5. Thou shalt be thyself. Never seek to imitate another.

6. Thou shalt live within thy means, thine own desires, thy neighbor's appearances and high-pressure salesmen notwithstanding.

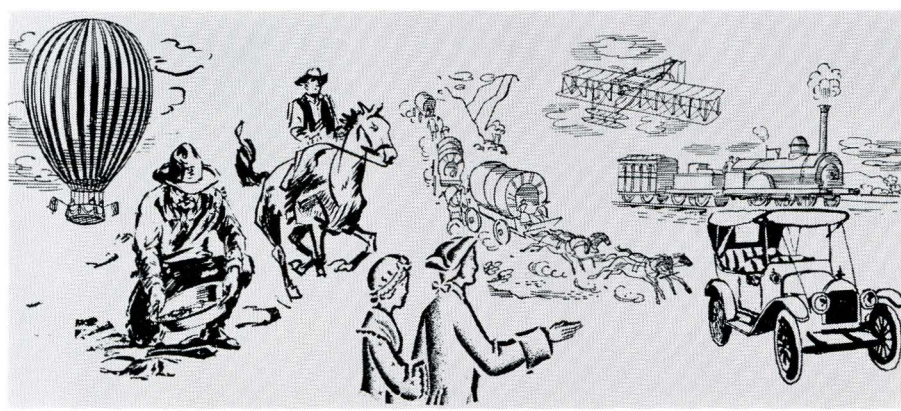

7. Thou shalt not worry; neither shalt thou be nervous or fearful of the future, for worry is the death of happiness.

8. Thou shalt do well to get acquainted with Nature, for many have thereby discovered beauty, melody and fragrance in life.

9. Thou shalt take care never to seek for happiness, for it is one thing which seeking canst not find.

10. Thou shalt above all, strive ever to contribute to the happiness of others, for in so doing, thou shalt discover happiness in thine own mind.

CREDIT UNION NEWS

By ROD PITTMAN

SOMETHING new in 1967, is that all LFM Federal Credit Union members will receive a statement of their account every three months. In 1966, a 5% dividend was paid to all share holders.

The Credit Union office hours are from 12:00 noon until 5:30 p.m. on Monday and Friday. The office is located in the white frame Main Office Annex. The telephone number is NE 2-4397.

We would like to welcome the following new members for the month of February: Mae Massingill, Benny J. Wilson, Welding and Structural Shop; Wayne O. McMullen, Pattern Shop; R. D. McClendon, Pattern Shop; James Modisette, Pattern Shop; George Ray Montes, Machine Shop; Jesse M. Brooks, Welding and Structural; and Gary Cantrell, Assembly and Shipping.

Also, Charles W. Hodges, Construction and Maintenance; Rudy Fuller, Main Office; J. Wyman Smelley, Welding and Structural; H. M. Wilkinson, Welding and Structural; Jerry Milligan, Welding and Structural; Curtis Hunter, Foundry Department; Don Mayo, Machine Shop; Joseph V. Walker, Machine Shop; and R. J. Walker, Welding and Structural.

A man can wear his hair three ways: parted, unparted, departed.

Bargain: "A transaction where two people are sure they got the better of each other."

The Foundry Roundup

Lufkin Foundry & Machine Co.

P. O. Box 849
LUFKIN, TEXAS 75901

RETURN REQUESTED

BULK RATE
U. S. POSTAGE
PAID
Permit No. 5340
HOUSTON, TEXAS

Louise, a little girl who had begun life in a happy-go-lucky household, went to spend a few months with a very strict aunt. One evening, after a trying day, when she had been scolded more than ever, she knelt for her evening prayer. As the aunt passed the open bedroom door she heard, "Oh, dear angels, make all the bad people good and the good people a little easier to live with."

An elephant is an animal that comes in one of three colors depending whether you're on a safari, a rummage sale committee, or a weekend party.

Only a few years ago, a juvenile delinquent was one who owed money on a library book.

Car makers are naming so many of their new models after water creatures. There are the Sting Ray, Barracuda, Marlin and on and on. Volkswagen will probably follow the trend by christening a smaller bus the "Polywogen."

One girl to another: "Of course I had to tell her she looked like a million—and I meant every year of it!"

Having been out on a party, Joe arrived home in tipsy condition. His housekeeper, knowing his nearsightedness, said, "How did you find your way home on such a dark night?"

Joe replied, "Oh, my host lent me a lantern so I could see without difficulty."

Later the truth came out in a note from his host: "Dear Joe, will you please return the canary and cage you took with you last night?"

Then there was the husband and wife who talked in their sleep. He plays golf and she loves to go to auctions. The other night the golfer yelled, "Fore!" His wife answered, "Four and a half!"

A new groom confides that his wife's cooking is so bad that he even has to give the garbage disposal Alka Seltzer.

A young engineer was showing a visiting Russian the skyline of New York City. The engineer pointed out one skyscraper and mentioned that it took only 10 months to build it. The Russian grinned and said it could be built in five months in Russia. The engineer pointed out another building and bragged that it was built in only six months. The Russian laughed and said it could be built in three months in Russia.

The Russian noticed the Empire State building and asked how long it took to build it. "You've got me," said the engineer. "It wasn't there yesterday."

A professor of English and the instructor of Engineering were dining together in the faculty cafeteria. During the meal the former spoke: "I had a rather peculiar answer in class today. I asked who wrote the 'Merchant of Venice' and a rather young freshman replied, 'Please, sir, it wasn't me!'"

"Ha, ha ha!" laughed the Engineering instructor, "and I suppose the little rascal did it all the time."

Keeping up with the Joneses is quite a problem now that they have two cars, a boat and a dropout from one of the best colleges.

A high school boy took home from the library a book whose cover read "How to Hug" only to discover it was volume 7 of the encyclopedia.

A girl studying to be a cheerleader took a course called Rah-Rah-Rah 101. But the teacher began to lecture about Sis-Boom-Bah. "Isn't this Rah-Rah-Rah 101?" the gal asked. "Why no!" the prof replied, "that's a course of a different holler."

Nuclear warfare will never determine who is right—only who is left.

Doctor to portly patient: "Follow this diet, and in a couple of months I want to see three-fourths of you back here for a checkup."

This would be a fine world if all men showed as much patience all the time as they do when waiting for a fish to bite.

Girl to girl: "It wasn't much of a proposal. He suggested we pool pay envelopes."

A deer and an antelope were out on the prairie. The antelope stuck up his head suddenly. The deer asked, "What's wrong?" The antelope responded, "I thought I just heard a discouraging word."

The hostess at a children's birthday party was chatting with one of the girls. "My, your little brother is shy. He hasn't moved from that corner all afternoon."

"He's not shy," the little girl said. "He never has had a necktie on before and he thinks he's tied to something."
