

The Foundry Roundup

OCTOBER, 1969

from THE PRESIDENT'S DESK...

FELLOW EMPLOYEES:

IT IS a real pleasure to deal with or associate with people who greet you with a smile. It's a pleasant way of expressing their feelings of welcome toward you.

The person who can carry a smile on his face during these times of so much turmoil and trouble is certainly to be admired. He can do a lot of good by just being seen with it.

From "The Joy of Words" is found this meaningful definition:

"A smile costs nothing but gives much. It enriches those who receive, without making poorer those who give. It takes but a moment but the memory of it lasts forever. No one is so rich or mighty that he can get along without it, and no one is so poor but that he can be made richer by it.

"A smile creates happiness in the home, fosters good will in business, and is the countersign of friendship. It brings rest to the weary, cheer to the discouraged, sunshine to the sad, and is nature's best antidote for trouble. Yet it cannot be bought, begged, borrowed or stolen, for it is something that is of no value to anyone until it is given away."

Some people are too tired to give a smile. Give them one of yours, as no one needs a smile so much as he who has none to give.

A smile is contagious. Even though you give it away, it seems always to come back to you.

If you keep smiling, it may make a lot of people wonder what you are up to, but it can add a lot to your face value.

R. L. POLAND

Facilities are provided at the company clubhouse for skeet shooting, and most of the summer employees gave it a try before dinner.

Party Given SUMMER Employees...

Bayo Hopper wished the schoolboys success in their educational pursuits and encouraged them to return to Lufkin after graduation.

IN REFERENCE to brain cells and body muscles, an education expert has said that, for functional reciprocity, each needs an occasional vacation from the other.

For 150 high school and college students, 50 more than last year's total schoolboy employment, Lufkin Foundry provided this break from the study routine during summer vacation. Instead of sunning by a pool or dangling a line into the lake, these energetic youngsters chose to take advantage of the company's policy of hiring students to encourage Angelina County youths to continue their educations.

As employees of both shops and offices, they caught a brief but first-hand glimpse of products in the making and technology on the drawing boards. And in the same three months, Lufkin Foundry's 2000 full time employees glimpsed a cross-section of our local young people who chose to supplement their classroom educations with practical experience.

Many will remain with the company on shifts arranged to allow full class schedules at Angelina College and Stephen F. Austin State University. Others have returned to their various campuses with, what is hoped, fresh understanding and profound insight into "the outside world," campus terminology for the environment students enter after graduation.

To show appreciation for their cooperation and contribution to the company's production, summer employees were honored with a fried chicken supper at Piney Ridge in August. Entertainment included a skeet shooting exhibition and a karate demonstration.

Referring to this year's group of student employees, Johnny Long, personnel director, said, "I got tremendous reports from their foremen. They caught on quickly to the skills assigned them and they co-operated with company policies.

"The important thing is that they were eager to learn about industry and get an overall view of its function in the enterprise system."

Executive Vice President Bayo Hopper, also addressing the group at Piney Ridge, encouraged the boys to consider Lufkin Foundry for permanent employment after college.

He pointed out that most company leaders are local men, adding, "You don't need to leave Lufkin to find business opportunity. There are many men prospering in Lufkin who have grown with the company, because they realized the chance to utilize their abilities right here in their hometown."

Frank Leonard, summer employees of the Welding Shop, kicked a solid board into two pieces. Frank has a first degree black belt in karate. He and two assistants, all associated with the Japan Karate Association, demonstrated the ancient form of defense.

Retired Plant Superintendent Guy Croom dished out plenty of generous servings.

Shop Talk

THE opening of school marked the close of a successful baseball season for Timmy Carpenter.

As catcher for the Little League's Angels, Timmy captured a trophy in the Livingston Tournament, in which eight teams participated. He won another trophy for his alert catching at the Huntsville Tournament.

The son of Mr. and Mrs. LYLE CARPENTER, Timmy is a sixth grader at Trout Elementary School. His father works in the Machinery Sales department.

DEE RUSSELL and his family spent a week's vacation in Colorado this summer. He works in the Assembly and Shipping department, first shift.

Congratulations to Mr. and Mrs. J. B. WHITEHEAD who were married Aug. 8. He is employed in the Trailer Division.

We are sorry to learn of the death of HOWARD SKILLERN's father. Howard works in the Material Control department but has been in a Tyler hospital for several months. We hope his condition is improving.

A dozen or so members of the Foundry department, who were fishing on Lake Sam Rayburn this summer, witnessed the confusion when CLAYTON JIRCIK "lost" his boat trailer.

ROBERT LANG waited in the boat while Clayton went to get his truck and trailer to pull the boat out of the water. But when Clayton backed into the water the trailer was missing!

Somewhere between the parking lot and the ramp, Clayton's trailer became unhitched and rolled away.

We extend sympathy to BILLIE T. BELL, Machine Shop, first shift, whose wife died.

We hear there's a new baby boy in the home of Mr. and Mrs. LARRY GOODSON. Larry works in the Mill Supplies Division.

Mrs. L. M. HODGES stepped into her yard one day last summer and almost tripped over seven tiny baby possums. It was hard to estimate how old the little orphans were at the time she found them, but she said they were

LAST month Timmy Carpenter traded in his baseball for books, but he has these two trophies to show for his skill as a little League catcher.

PAM HOOKER, left, and her cousin, Dina Hodges, play with three of seven baby possums found in the Hodges' yard.

so small that several could rest in the palm of a child's hand.

They became pets of the three Hodges children, Kent, 13; Craig, 9; Dina, 7; plus the children's cousin, Pam Hooker, 14. Pam's parents are BEN and BETTY HOOKER. Photographic department and Publications department, respectively.

L. M. Hodges works in the Trailer Division, first shift.

Greetings to DON KENNEDY, a former employee of the Machine Shop, second shift, from 1962 to 1966, who is recuperating from a back injury he received in Vietnam. Don is a master sergeant in the Air Force.

He is the brother of SAM KENNEDY, Material Control Warehouse, first shift.

LaWanda Joyce Jennings became the bride of DWAIN R. FORSYTHE, Accounting department, July 11.

Their parents are Mr. and Mrs. J. W. Jennings, Diboll, and Mr. and Mrs. Richard Forsythe, Lufkin.

Deepest sympathy is extended to CURTIS HODGES, Machine Shop, first shift, whose mother died.

We are sorry to hear that SAM BARROW's mother has been in a hospital in Denver.

Sam works in the Lathe Shop, second shift.

Ray A. Wolford, son of Mr. and Mrs. R. A. WOLFORD, has been promoted to captain in the U.S. Air Force at Luke AFB, Arizona, where he is a personnel officer in a unit of the Tactical Air Command.

Captain Wolford is a graduate of Lufkin High School and attended Stephen F. Austin State University and North Texas State University. He holds a bachelor of business administration degree.

His father is an employee of the Machine Shop, first shift.

Sympathy is extended to FORD RODDAM, Commercial Gears department, first shift, upon the death of his brother-in-law.

Anne Arnold Jones, daughter of Mr. and Mrs. NORMAN ARNOLD, was graduated from Sam Houston State in August. She received a bachelor of business administration degree.

She works in the business office at Sam Houston, where her husband, Stormey Jones, a degree candidate in January, is a criminology major. He is head resident at the Sigma Chi house.

Anne's father works in the Maintenance department, first shift.

H. C. JACOBS and JOHNNY SMITHERMAN are taking a lot of kidding about their fishing trip.

Johnny had car trouble and was so late getting to the fishing site that his

THE HODGES brothers, Craig, left, and Kent, made pets of the orphan possums.

ANNE ARNOLD JONES . . . graduate of Sam Houston State.

ROBBIE JEAN ASHWORTH . . . celebrated second birthday on August 24.

buddy was already cleaning the fish. As if to rub it in, H. C. generously tossed Johnny a fish head, assuring him that the head weighed as much as the rest of the fish.

H. C. works in the Machine Shop, Assembly Floor, first shift, and Johnny is an employee of the Jig department, first shift.

Bethlehem Methodist Church was the setting for the Aug. 8 wedding of

Elvis Fuller and the former Wanda Gurganus, daughter of Mrs. Robert Cook and the late Leroy Gurganus.

The bridegroom's father is LESTER FULLER, Trailer Division, first shift, and his mother, MARY, works in the Mail Room.

The new bridegroom attends Angelina College.

Robbie Jean Ashworth, daughter of Mr. and Mrs. ROBERT NICK ASH-

WORTH, celebrated her second birthday August 24.

Her father works in the Trailer Division, first shift.

Tool Room employee JOE BEHANNON discovered that it doesn't pay to out-dress his friends.

He showed up at a party at Piney Ridge a few weeks ago wearing a tie. Since he was the only one with a

Employees who accumulate medical expenses during a calendar year, should file their FIRST claim for reimbursement of medical expenses after they have accumulated between \$50 and \$100 in medical expenses on themselves or one of their dependents. This is the word from Joe Perkins, insurance officer.

Employees will be reimbursed for 80% of the amount in excess of the required overall \$50 deductible. After the initial claim has been filed, satisfying the deductible, the employee then can send additional medical expenses to the insurance office every two or three months, depending upon the amount of medical expenses he has. If the employee has only a few dollars worth of expenses, he can hold his claim longer.

It takes quite a bit of detailed work and time to file the initial claim and often additional information must be requested.

Employees can prevent these requests for additional information by making sure their medical expenses are orderly and separate from medical expenses of other members of their family.

The following itemized information is necessary when an insurance claim is filed:

1. Person's name for whom physician's treatment is rendered.
2. Actual dates of treatment (not the date a statement is mailed from the doctor to the employee).
3. Corresponding dates of treatment on physician's form or itemized statement. The insurance office must have the diagnosis or nature of treatment.
4. Charge for each treatment.
5. Signature of the doctor.

On drugs or medicine obtainable only upon a physician's prescription, a statement from the druggist showing the following is necessary:

1. Name for whom medicine is prescribed.
2. Date prescription was purchased.
3. Prescription number.
4. Charge for the prescription.
5. Doctor's name who prescribed the medicine. (The doctor does not

have to sign his name to this statement, but the druggist should write the doctor's name on the statement.

The insurance officer said, "Unless you are certain that all your medical expenses for the year are in, please do not send your medical expenses to us late in December. Instead hold them until after the first of January, making sure that all bills have been mailed to you from the doctor and drug stores, closing out all your medical expenses for the old year."

SHOP TALK *continued*

tie, Joe's co-workers got him off in a corner with a pair of scissors and snipped it off just past the knot.

CLARENCE "CATFISH" MILLIGAN has been in the hospital. He is employed in the Assembly and Shipping department, second shift.

We extend sympathy to ELBERT DEASON, Foundry department, first shift, upon the death of his mother.

"SHORTY" JACKSON, Lathe Shop foreman, first shift, has returned from a two-week vacation to the Dakotas where he and his wife visited relatives.

We hear there's a new baby in the home of Mr. and Mrs. RICHARD FAVIELL. The proud papa works in the Engineering department.

Deepest sympathy is extended to the family of HORACE ASKINS, Gear Cutters department, first shift, who died July 26.

THREE-year-old Stacy gets a few football pointers from dad, Glenn Davenport.

July 19 was Stacy Davenport's third birthday.

He is the son of Mr. and Mrs. GLENN DAVENPORT, and his father is employed in the Machine Shop, first shift.

We hear that some rather unorthodox baits are being used by fishermen in the Welding and Structural Shop.

WYMAN SMELLEY catches bream with kernal corn niblets. RONNIE SMITH claims he catches crappie with rubber bands, but we think that's stretching it a bit.

We extend sympathy to BILLY SUMMERS, Foundry department, second shift, whose brother-in-law died.

FRANK LEONARD, Welding and Structural Shop, first shift, was graduated in August from Stephen F. Austin State University with a bachelor of science degree. He majored in accounting and economics.

Frank soon will enter the U.S. Air Force Cadet Corps.

CECIL OATES, Welding and Structural, second shift, has been recuperating from an operation in a Houston hospital. His fellow workers are looking forward to his coming back to work.

Sympathy is extended to ERVIN ANDERSON, Foundry department, first shift, upon the death of his father-in-law.

Mr. and Mrs. SAMMY KIRKLAND spent the last two weeks in August vacationing in Colorado, Las Vegas, Arizona and New Mexico.

Sammy works in the Machine Shop, Assembly Floor, first shift.

This summer Oscar Dixon, Jr. was home for a 30-day leave from the army before beginning his tour in Vietnam.

He has been stationed in Georgia, Virginia and Louisiana.

He is the son of Mr. and Mrs. OSCAR DIXON and his father is an employee of the Machine Shop, first shift.

COOPER RICHARDS, vice president and manager of machinery sales; BOBBY CLARK, marine gear engineering; and EDD TERRELL, serviceman, spent a five-day vacation in August fishing in Canada.

They flew Cooper's plane to Baudette, Minnesota, then drove to a pri-

OSCAR DIXON, JR., home on 30-day leave, visits with dad.

vately-owned fishing resort, Camp Obabikon, in Ontario.

Fishing was serious business for the three, who were expected to catch enough fish for their lunches, which were cooked on a nearby island by a camp guide.

The trip's only mishap occurred when Cooper slipped on the edge of a granite island as the boat docked for lunch. He was bruised and soaking wet. Drying off wouldn't have been so bad here in Texas where the temperature was 100 degrees, but in Canada the thermometer read only 57 degrees that day!

Sympathy is extended to LOUIS FINCHER, Engineering department, upon the death of his father. He was the grandfather of JOHNNY FINCHER, Middle East Sales Manager, Tripoli, Libya.

BILL CATER spent some vacation time fishing on the gulf coast in August. He is an employee of the Assembly and Shipping department, first shift.

Mr. and Mrs. CALVIN N. HUGG announce the adoption of twin boys, Pat Anthony and Paul James, 18-months-old.

Calvin is employed in the Trailer Division.

R. W. WIMP and new companion, "Susie Trailer"

FRED JENKINS' co-workers in the Foundry department, first shift, are glad to see him back at work following his two months of recuperation from an injury.

Mrs. RAYFORD DAVIS is in her final year at Stephen F. Austin State University where she is majoring in elementary education.

Her husband is an employee of the Assembly and Shipping department, first shift.

FRANK MARTIN, Foundry department, first shift, and his family spent five days in Arkansas with a stopover in Hot Springs.

A four-legged freeloader whimpered her way into the heart of R. W. WIMP, Security Guard at the new Trailer Plant, one hot afternoon last summer. Now employees are greeted at the gate every morning with a friendly bark.

Mr. Wimp named his little mascot, "Susie Trailer" and says she's part everything, the "Heinz 57 variety type."

"She was skin and bones when she wandered over here whimpering," he said. "We gave her food, a name and a home."

As far as watchdogs go, her bark is worse than her bite, but Mr. Wimp says she's good company.

JACK SANDIFER came back from his vacation with a wonderful suntan. He spent several days in Acapulco, Mexico.

Jack works in the Foundry department, first shift.

Sympathy goes to CLARENCE MAVISON, Foundry department, first shift, upon the death of his aunt.

Jerri Lynn Yarbrough became the bride of David Wayne Sharpe Aug. 8.

She is the daughter of Mr. and Mrs. RAY YARBROUGH and the niece of Mr. and Mrs. JEWEL DRAKE. Her father is an employee of the Trailer Division and her uncle works in the Electrical department.

We extend sympathy to O. A. ALLSBROOKS, Foundry department, first shift, whose niece was killed in a car accident.

No one around these environs doubts the fishing prowess of Plant Superintendent MUTT BARR. However, a recent safari to the gulf coast by four Lufkin Foundry fishermen has cast some doubt on his reputation.

W. W. TROUT, chairman of the Board, invited Mutt, FRED GRIFFIN, BILL TROUT and BOB POLAND to do some fishing offshore from his home-away-from-home near Gilchrist. All the

way to Gilchrist, Mutt kept telling the other three that he would be happy to instruct them in the art of salt-water fishing, since he had been successful at it for several years.

Even after they arrived, he continued his dissertation complete with vivid action descriptions of how many large and difficult-to-land fish he had caught, constantly assuring the others that he would give them the benefit of his experience.

Next morning when the five went out into the bay on their fishing expedition, Mutt began his demonstration—but for some reason, no fish were hooked.

After patiently waiting for awhile, Fred, Bill and Bob began to fish on their own. Immediately they started hauling in huge catches. The pace picked up until they were catching fish so quickly that Mutt had to lay down his reel and help them take their fish off the hooks. He did such an excellent job that he was unanimously given this task on a full-time basis.

So, while Walter Trout handled the boat and the other three pulled in the fish, Mutt busied himself with taking care of the catches. Nothing else has been mentioned about Mutt's skill at bay fishing. His friends just hope he won't refuse to go along the next time they get an invitation to go fishing on the bay.

Sometimes animals are superior to human beings. If there are 30 horses in a race, 50,000 people will go to see it. Put 30 people in a race and not one horse will be found among the spectators.

Women today wear just as many clothes as their grandmothers did—just not all at once!

An optimist is a man who thinks the dry cleaners are shrinking the waistline of his trousers.

It's easier to let it go in one ear and out the other if you have a minimum in between.

Overheard in the beauty shop: "I can't go into all the details, darling. I've already told you more than I heard myself."

The following sign is alleged to have appeared on an Air Force bulletin board: "Notice! Positively no flying permitted over Happy Valley Nudist Camp which is exactly 10 miles NNW on a true course of 170 degrees."

Death and taxes are inevitable, but death doesn't get worse every time Congress meets.

It takes two to make a marriage—a single girl and an anxious mother.

Library sign: Only low talk permitted here.

George: "Do you have an opening for a smart, promising, eager, young fellow?"

Boss: "Yes, but don't slam it on the way out!"

"How do you know you were going only 15 miles an hour?" the judge asked the driver accused of speeding. "I was on my way to the dentist."

Behind every successful man is a woman and the Internal Revenue Service.

The man who remembers what he learned at his mother's knee was probably bent over at the time.

The teacher was trying to explain the meaning of certain words to her class. She came to "sufficient."

"Now," she said. "Suppose there was a cat here and I gave it a saucer of milk which it drank. Then I gave it another saucerful and it drank it all. But when I gave it a third, it would only drink half of it. We can then say the cat had sufficient. Now, Tommy, what is the meaning of 'sufficient'?"

"A cat full of milk," Tommy answered eagerly.

One day the devil called up St. Peter and challenged him to a baseball game.

"Okay," St. Peter said. "But you know we have all the great players up here."

"You'll lose anyway," the devil replied.

"Don't be foolish," St. Peter replied. "We're sure to win. Why we have Christy Mathewson, Babe Ruth, Ty Cobb and..."

"I know," the devil interrupted, "but we have all the umpires down here."

It is time for a man to give up martinis when he starts asking the bartender to leave out the olive because it takes up too much space.

The Texas millionaire had so much money he didn't know what to do with it. So he microfilmed it.

Sign in a pawnshop: Hock it to me, baby.

Have you heard about Marriage Anonymous for divorced men? When-

ever you feel like getting married again they send over a woman in a housecoat and hair curlers.

A golfer was having a terrible day on the links. When he wasn't slicing, he was hooking.

Finally, on the 13th hole, he flubbed a two-footer. That did it.

He picked up the ball and threw it as far as he could, broke two clubs over his knee and sat down on the green, a picture of total frustration.

"I've got to give it up! I've got to give it up!" he said over and over.

"Golf?" asked the caddy.

"No. The ministry."

"How do you feel today?" the young doctor asked brightly as he looked in on his elderly patient. "I've felt a lot better," replied the old man. "My right leg is giving me right much misery. It is pretty stiff and aching something fierce."

"Well," said the doctor. "I'm sure that's just old age."

"Don't believe so," said the old man. "My left leg's exactly the same age and it don't bother me none at all."
