

The Foundry Roundup

MARCH 1970

FROM THE PRESIDENT'S DESK . . .

FELLOW EMPLOYEES:

Recently, we visited friends who lived in an apartment development. At nightfall, every lamp and fixture in every room was switched on and the entire apartment was ablaze with light.

Later, as we and our friends left the apartment, we somewhat hesitantly questioned leaving *all* the lights burning. "Oh, it doesn't matter," our friends replied. "It's part of the rent. We don't have to pay for our electricity."

Outside, we looked back and, sure enough, light poured from almost every window in the development. Evidently most tenants reacted just as our friends to their *free* electricity. The landlord's light bill must have been monumental—but so was the rent. Aware or not, those tenants paid for their electricity.

It's common practice to be prodigal with money we don't think of as ours. We play with sugar envelopes in restaurants and pilfer towels from motels. But restaurant prices, motel rates and rents are all based on costs. Even though those costs are hidden, the man who uses—or wastes—material eventually pays for it.

And so it is in the large business or industrial firm. Many employees act on the theory, "the company is rich." It's hard for a man to realize that anything he wastes—from raw materials to time to paper towels—can have any telling effect on this wealthy institution, much less on himself.

And if he were the only wasteful one, it wouldn't.

But he's one of many, and the cost of his carelessness must be multiplied by hundreds to reach the total profit loss suffered annually by a large firm as a result of wastefulness.

If this employee owned Lufkin Foundry and Machine Company, he would have to pay for paper towels and the raw materials. The time he wasted would be money out of his pocket. You can bet he'd be more careful.

Whether an employee is a part owner of this company or not, he still suffers from waste as well as the stockholder. For the company does share its profits in the form of wages, year-end bonuses, insurance coverage, vacations and a host of other benefits. The less that's left over after costs, the less there is to share.

It might be a good idea, then, for all of us to act as if we owned the place. In a way, it is our own money we throw down the drain with our waste.

R. L. POLAND

STEPS to the porch are of the smokey gray and pink brick used on the new Tullos home in Apple Springs

From a DREAM Came REALITY...

BY CAROLYN CURTIS

“THE whole idea just started in my mind. I sat out on a stump and imagined the floor plan and how the house would look on this property,” explained Dan Tullos, Lathe Shop, first shift, who recently has completed work on his new house, the third he has built himself and completed without blueprints.

The 2049-square-foot home is on a 45-acre plot in Apple Springs on the site where Dan’s childhood house stood. The outside finishing touches lack final supports for the front porch, but Dan plans to erect turned wooden posts to carry out the colonial styling and supplement the smokey gray and pink brick, an old Kentucky pattern the Tulloses found in Waco.

They also plan a vegetable garden and will put in grass this spring, sloping the yard away from the house.

Mrs. Tullos says the interior lacks curtains over the sliding windows, so her latest project has been combing magazines and catalogues for fabric and color which will best complement the ash panelling used throughout the house. They selected pre-fin-

STACY assists her mother at the kitchen counter separating family room and kitchen. Her avocado formica matches the built-in stove and oven

ished panelling and applied two coats of sealer to leave a natural wood effect in some of the rooms, while other rooms were ivory finished.

Her kitchen-family room combination was designed for function as well as comfort.

“So many homes have a den and a fancy living room which is rarely used. We didn’t see any use for a room that was so formal we wouldn’t feel comfortable in it,” Dan explained.

The kitchen cabinetry features a scalloped design and the built-in stove and eye-level oven are avocado

STACY'S bedroom has blond furniture to match the pale ivory panelling

A COPPER light fixture extended from the ceiling by a chain hangs in the family room. The ceiling is sheetrock with a swirl finish

WHITE trim and turned wooden posts will complete the exterior's colonial styling. Dan and Danny examine the temporary brace soon to be replaced by posts

to match the formica counters.

Inlaid linoleum was used in every room and the ceiling is sheetrock with a swirl finish.

"Carpeting is nice when you live in town, but it would be impossible to keep clean out here, especially until we get our grass in, so we chose linoleum flooring," Mrs. Tullos said.

They built an extra large garage, 24 feet wide, and a utility room. The house has three bedrooms and a bath and a half.

Dan did his own wiring and plumbing, including laying 30 inches below ground an 1100-foot line to the main Apple Springs water line and installing central heat and air-conditioning.

Working mostly on weekends, holidays and vacation days, Dan has had volunteer help since the project's inception last May. He says he couldn't have finished it without assistance from his brothers, Jerry and Dwayne, both in the Gear Cutters department; Jimmy Hathorn, Machine Shop; Jack Landrum, Lathe Shop; and Dan's cousin, Roy Tullos, Foundry department. All are first shift employees.

He contracted for the concrete and brick work. "We wanted Danny to start second grade at Apple Springs, so we moved over there," Mrs. Tullos said, indicating the "green house," as four-year-old Stacy calls the one-room frame building, originally built as a weekend house when the Tulloses lived in Lufkin and which eventually served as a temporary

THE TULLOS children, Danny, 7, and Stacy, 4, thumb through magazines with their parents searching for ideas for curtains

home during the months of construction on the new house. The bedroom windows across the back of the new house face the "green house" a few yards away.

"We really roughed it in that clubhouse," she recalled with a laugh. "We felt like pioneers breaking the ice in the water bucket on cold mornings to wash our faces."

She added that this was incentive enough to hurry construction on the new house whenever they were tired and discouraged.

A CISTERN behind the house marks the location of Dan's childhood home

MRS. TULLOS arranges flowers in the blue bathroom. The house has a bath and a half

DAN operates a tape-controlled lathe on the first shift. He will have been employed with the company 16 years next May

Shop Talk

LEW WALLACE said that "beauty is altogether in the eye of the beholder" long before the advent of unisex hair styles and hippie-length locks. Today it takes a professional girl-watcher to know he's not wasting his time.

One anonymous second shift Trailer Division employee today is \$10 richer because of what his eyes beheld. He and two co-workers commute to work from Nacogdoches. One afternoon they passed a cute red-haired gal surveying with obvious distress her flat tire.

Gallantly, the other two fellows tried to convince our work-conscious girl-watcher that punching in late was worth this chance to be heroic. He was outvoted and their car made a U-turn.

Guess who was the real hero when they arrived on the scene and the distraught lass swung her red locks around to smile prettily at her suitors—through a full-grown beard! And guess who was paid \$5 each by the disappointed ones to keep his mouth shut about their identities!

Pfc. David Paul McGaughey, son of Mr. and Mrs. DELMER McGAUGHEY, is serving with the U.S. Army in Vietnam.

A graduate of Huntington High School, he is married to the former Dwanna Snell.

His father is an employee of the Foundry department, first shift.

Employees of the Lathe Shop send special greetings to PETE MOORE, a retired employee of their department.

MRS. JOHNNIE ROWE, right, retired after 20 years as cafeteria manager at Melear Elementary School. Mrs. Robert Kendrick, president, presents a \$50 check on behalf of the P-TA. Mrs. Rowe is wearing a diamond pin given her by co-workers

PFC. DAVID PAUL McGAUGHEY
... stationed in Vietnam

When Mrs. Allie Mae Rowe retired after 20 years as manager of the cafeteria at Melear Elementary School, the women in the cafeteria gave her a diamond pin. The P-TA honored her at a meeting and presented her with a \$50 check.

Her responsibilities for the cafeteria included planning menus and buying food.

She is the wife of JOHNNIE ROWE, Security Guard, second shift.

Mr. and Mrs. Rex Wilson of Madisonville announce the engagement of their daughter, Susan, to JERRY M. TAYLOR, Trailer Engineering department. His parents are Mr. and Mrs. Freddie Taylor of Lufkin. March 27 is the wedding date.

The bride-elect is a graduate of Lufkin Secretarial and Business College and Jerry attends Angelina College.

Employees of the Welding and Structural Shop, first shift, have been asking JAMES CARLILE a tender question, "How does it feel to hit your foot with a bowling ball?"

Greetings to Mrs. CHARLES McLAIN, who has been in a Houston hospital. Her husband works in the Commercial Gears department, first shift.

CLARENCE ANTHONY ROSS, Trailer Plant, has signed for a four-year hitch with the Navy. His first assignment is San Diego.

Clarence is the son of CARL ROSS, Pattern Shop.

LINDA LOVELESS and David Hendricks
... April wedding planned

Mr. and Mrs. PRESTON LOVELESS announce the engagement of their daughter, Linda Jean, to AIC David E. Hendricks, son of Mr. and Mrs. ARNOLD HENDRICKS. The prospective bridegroom is stationed at Keesler AFB, Mississippi, and she is attending Massey Business College. An early April wedding is planned.

Father of the bride-elect works in the Material Control department, and David's father is an employee of the Machine Shop, first shift.

Mr. and Mrs. WALLACE LANKFORD broke in their new car in late December when they vacationed with two of their children stationed with the Air Force and Army in Florida and Georgia.

Sgt. and Mrs. Ted Lankford and their one-year-old son, Barrett, live in Myrtle Beach, Florida, and Mr. and Mrs. Roy Truss are stationed at Ft. Benning, Georgia.

SUSAN WILSON ...
engaged to Jerry Taylor

GLEND A CLARK
... debut was Feb. 14

Wallace works on the Machine Shop Assembly Floor, first shift.

Although not meaning to take lightly the seriousness of BILL LUCE's hip injury, several of his co-workers in the Lathe Shop, first shift, suggest that if someone would donate Bill some dogs, maybe he wouldn't have to run after his deer himself.

Greetings to Mrs. THOMAS WILLIAMS, who had surgery. Her husband is employed in the Material Control Warehouse.

CHARLIE BECK's son-in-law, Pvt. Jimmy Prejean, is serving with an Army mortar unit approximately 40 miles from Saigon. He completed basic training at Ft. Bliss and attended advanced training school in California.

Charlie is Commercial Gear foreman, first shift.

Glenda Clark made her debut Feb.

JOHN LAIRD, Travis Stuckey and James Weeks, all in the Material Control Warehouse, and Roy Davis, Assembly and Shipping department, first shift, plus two other friends bagged these nine deer in West Texas on Thanksgiving weekend

VERNELL CLARK ... president of Angelina College Student Council Association

14 at the Delphian Club Cotillion Ball in the Angelina College ballroom. The daughter of Mr. and Mrs. MANZEL CLARK, she plans to attend Massey Business College and major in secretarial science after her graduation this spring from Dunbar High School. She is a member of the senior choir, Future Homemakers of America and Dramatics Club.

Her brother, Vernell, a sophomore pre-pharmacy major, is president of the Angelina College Student Council Association. He played the role of Dr. Bradman in the college Dramatics Club production, "Blithe Spirit," and he is active in the Baptist Student Union and the Angelina College Choir. He was graduated from Dunbar High

CLARENCE ROSS
... San Diego bound

MARGARET GRIFFIN
... wedding date is May 23.

School in 1968. Vernell will continue his pharmacy major at the University of Houston next year.

Their father is employed in the Machine Shop, first shift.

Mr. and Mrs. FRED GRIFFIN announce the engagement of their daughter, Margaret, to Robert Ernest Baze, son of Mr. and Mrs. Roy Baze of New Canaan, Connecticut. Both will be graduated from The University of Texas at Austin this spring, where she is a math major and he is majoring in chemical engineering. The wedding is set for May 23.

Father of the bride-to-be is chief engineer of the Machinery Division. Margaret was employed one summer in the Publications department.

Congratulations to newlyweds:

LOUIS R. BURNETT, Trailer Division, first shift, and the former Jeannie Ballard, daughter of Mr. and Mrs. Mac Ballard. His parents are Mr. and Mrs. R. B. Burnett. They were married Dec. 13, 1969.

Mr. and Mrs. PHIL HELLBERG, who were married Feb. 7. Molly and Phil. Welding and Structural Shop, third shift, attend SFA. His father, HERMAN HELLBERG, works in the Trailer Division, first shift, and the bride is the daughter of Mr. and Mrs. D. E. Willis of Port Arthur.

RONALD ROOK, Trailer Division, first shift, and the former Donna Sue Deal, daughter of Mr and Mrs. JOE C. DEAL. Father of the bride at the Jan. 9 wedding works in the Construction and

MRS. JAMES KING

Maintenance department, first shift. Ronald's parents are Mr. and Mrs. Fred M. Rook of Houston.

JAMES RITCHIE, Foundry department, first shift, and the former Leah Jane McMullen, who were married Dec. 30, 1969. Their parents are Mr. and Mrs. Gordon Horn and F. S. Ritchie and the late Mrs. Ritchie.

Mr. and Mrs. JAMES KING, whose wedding was Nov. 22, 1969. Brenda Kay's father is HUBERT LANKFORD, Machine Shop, second shift. The new bridegroom works in the Trailer Division, second shift.

There are new arrivals in the homes of:

Mr. and Mrs. James Earl Davis, whose son, James Kevin, was born Nov. 17, 1969, in Colorado Springs, Colorado, where Pfc. Davis is stationed at Ft. Carson. Little Kevin weighed 4 pounds 13 ounces. Grandparents are BILLIE DAVIS, Material Control department, and EARL DAVIS, Mill Supplies.

Mr. and Mrs. JAMES THOMPSON, whose son, James Keith, was born Dec. 21, 1969, and weighed 8 pounds 10 ounces. The new father works in the Assembly and Shipping department, first shift.

MARK DOW CHAMPION . . . boy number three for Mike

Mr. and Mrs. KENT ASKINS, parents of Jeffrey Christopher, who weighed 7 pounds when he arrived Dec. 12, 1969. The new father is an employee of the Tool Room, second shift, and the baby's grandfather, J. M. (SLIM) ASKINS, is retired foreman of the Lathe Shop.

Mr. and Mrs. MIKE CHAMPION, whose third son was born Jan. 10 and weighed 7 pounds 12 ounces. Little Mark Dow's brothers are Scott and Allan. Mike works in the Material Control department.

Mr. and Mrs. Gary Biggs, whose daughter, Kimberly Ann, weighed 5 pounds 5 ounces at birth Jan. 8. She is the granddaughter of THOMAS BASS, Trailer Plant.

Pfc. and Mrs. Dee Modisette, parents of Wendy Deann who was born at Chenute Field, Illinois, where her father recently has completed basic training. She arrived Dec. 28, 1969, and weighed 7 pounds 4 ounces. The maternal grandfather is CHARLES WINTHROP Sr., Welding and Structural Shop, first shift, and Dee's stepfather is ED ATKINS, Foundry department, first shift. CHARLES WINTHROP JR., Foundry department, first shift, is the baby's uncle.

Mr. and Mrs. R. L. ROSS, whose daughter, Angela Paulette, arrived Dec. 13, 1969, and weighed 5 pounds. The proud papa works at the Trailer Plant.

Mr. and Mrs. D. P. STANLEY, whose daughter, Kelley Renae, weighed 6 pounds 6 ounces when she arrived Dec. 30, 1969. The new father is an employee of the Welding and Structural Shop, second shift.

Mr. and Mrs. RALPH JONES, whose daughter arrived Dec. 1, 1969, and weighed 8 pounds 13 ounces. Davilyn Cherie is the granddaughter of GARLAND JONES, Electrical department, first shift, and O. E. JOHNSON, Assembly and Shipping department, first shift. The proud father is employed in the Foundry department, first shift.

Best wishes to following employees:

SAMMY DENMAN, Lathe Shop, first shift, who had surgery.

CLAUDE ROBERTSON, Gas Engines department, first shift, who was in a car wreck which put him in the hospital.

BUCK BARINGTON, Trailer Division, first shift, who has been off six weeks recuperating from surgery.

A. R. CHRISTIE, Welding and Structural Shop, first shift, who fell from a tree and broke his ankle.

J. D. EDWARDS, Welding and Structural Shop, first shift, who had surgery.

CLAUDE BAILEY, Machine Shop, first shift, who has been ill.

M. S. WELCH, Welding and Structural Shop, first shift, whose hand was broken.

J. D. PINNER, Welding and Structural Shop, first shift, who is recovering from an injury.

Deepest sympathy to:

The family of G. T. YOUNGBLOOD, who died in January. At the time of his retirement, he was foreman of the Gas Engines department.

LEONARD ANDERS, Foundry department, second shift, upon the death of his father.

SAM WALL, Foundry department, first shift, whose uncle died.

ERNEST LATHAM, Machine Shop Assembly Floor, first shift, and B. F. LATHAM SR., Lathe Shop, first shift, upon the death of their sister.

IZIAH JOHNSON, Foundry department, first shift, upon the death of his brother.

W. C. (PREACHER) WEEMS, foreman of the Tool Room, first shift, upon the death of his father-in-law.

FERDINAND GUILLORY, Foundry department, first shift, upon the death of his father.

DARREL CRAWFORD, Welding and Structural Shop, first shift, upon the death in his family.

RICHARD MOODY, Foundry department, second shift, whose grandmother died.

GARY MAY, Trailer Division Warehouse, upon the death of his father, Hugh May, who was also the uncle of EARL DOVER, Trailer Division, first shift.

E. E. EDWARDS, Foundry department, first shift, whose stepfather died.

PATTERN SHOP employee Billy Royce McClendon says there's more than one way to kill a deer besides shooting it

MEMO from Personnel

By JOHNNY LONG

THIS IS another in a series of articles prepared by the Personnel department concerning employee retirement. The following discussion is limited to disability retirement.

A participant may retire from the service of the Company under the Plan if he becomes totally and permanently disabled. However, to qualify for this disability retirement, he must have completed 20 years of credited service under the Plan, which would be a total of 23 years with the Company.

A participant will be considered totally disabled if, in the opinion of the Company, he is wholly prevented from engaging in any occupation and a participant will be considered permanently disabled if, in the opinion of the Company, such participant is likely to remain so disabled.

Before approving the payment of any disability retirement income, the Company shall require satisfactory proof in the form of a certificate from a licensed physician, approved by the Company, that the participant has become disabled. Every six months after commencement of disability retirement income, the Company may require proof of continued disability.

In computing the disability retirement income, there are several factors involved and if an employee is interested in determining how this is done, he may drop by the Personnel department for an individual conference.

A youngster received a red wagon for Christmas and for days he went nowhere without it.

One afternoon he was happily rolling it along the front sidewalk when his father called, "Take that wagon in back and play with it. Remember, it's Sunday."

The boy started to obey, then turned around and with a puzzled look asked, "Isn't it Sunday in the backyard too?"

"I can't get my report card back," said the boy to the teacher. "You gave me an A in something, and they're still mailing it to relatives."

Explorer: "Does your tribe know anything about religion?"

Native Chief: "Well, we had a taste of it when the last missionary was here!"

A man is getting old when he scans the menu without first looking at the waitress.

One of the best ways to surprise your husband on your anniversary is to mention it.

"And if I take the job, I'm to get a raise every year?"

"Yes, provided, of course, that your work is satisfactory."

"Ah! I thought there was a catch somewhere."

"I know I'm not really much to look at," her fiance admitted modestly.

"Oh, well," she philosophized. "You'll be at work most of the time."

"Have you given your goldfish any fresh water today, Junior?"

"No, ma'am. They haven't finished the water I gave 'em yesterday."

The big difference between a little rascal and a juvenile delinquent is whether he is your kid or somebody else's.

First woman, reaching for a second helping of dessert: "You know, I've just got to watch my waistline."

Second woman; "How fortunate you are to have it right out there where you can."

Since Smokey the Bear fire prevention posters were put into the subways, there hasn't been one forest fire on Manhattan Island.

An Eskimo mother was sitting in the igloo reading from a storybook to her small son.

"Little Jack Horner," she read, "sat in a corner."

"Mother," asked the boy, "what's a corner?"

The astronaut was poised for his launch when a reporter asked, "How do you feel?"

"How would you feel," the astronaut replied, "If you were sitting on top of 15,000 parts—each supplied by the lowest bidder?"

Nothing puts a family in debt as much as a small raise.

Said the patient mournfully, "I can't pay you, doc. I slowed down like you told me, and lost my job."

Two small boys were playing together when a very pretty little girl walked by. One of the boys said fervently to his pal, "Boy, when I stop hating girls, she's the one I'll stop hating first!"

Grouch: "I hear that the football coach gets five times as much salary as the Greek professor. Isn't that quite a discrepancy?"

Student: "Oh, I dunno. Did you ever hear 40,000 people cheering a Greek recitation?"

The company was reclassifying all jobs by sending out a questionnaire to all employees. When the elevator operator received his, he had no trouble

answering all the questions except, "How much time do you spend at each of your various duties?"

After much pondering, he answered, "Up, 50%. Down, 50%."

The best way to cure a woman of most any illness is to tell her that the symptoms are just a sign of old age.

"Three swimming pools," exclaimed a visitor, inspecting a friend's newly-acquired estate. "Why do you need that many?"

"One has cold water, one has hot water and the third has no water," the owner replied.

"I can understand the one with the cold water and even the one with the hot water," the visitor commented. "But why one with no water?"

"You'd be surprised," the millionaire answered, "how many friends I have who don't know how to swim."

Most women dislike jury duty because it is all listening.

Some couples embark on the sea of matrimony without a paddle, and the behavior of their children proves it.
