

# *The Lufkin Roundup*

MAY 1970

# FROM THE PRESIDENT'S DESK . . .

## FELLOW EMPLOYEES:

There have been many to recite various definitions of an American, but the one given by Lt. Comdr. N. D. Anderson seems to fit the average very well.

“An American is a fellow who yells for the government to balance the budget, then takes the last dime he has to make the down payment on a car.

“He whips the enemy, then gives him the shirt off his back.

“He yells for speed laws that will stop fast driving, then won’t buy a car if it can’t make 100 miles per hour.

“He knows the line-up of every baseball team in the American and National league—and doesn’t know all the words of the “Star Spangled Banner.”

“He’ll spend half a day looking for vitamin pills to make him live longer, then drive 90 miles an hour on slick pavement to make up for lost time.

“He ties up his dog, but lets his 16-year-old son do whatever he wants.

“He will work hard on a farm so he can move into town where he can make more money so he can move back to the farm.

“We’re the country that has more food to eat than any other country in the world and more diets to keep us from eating.

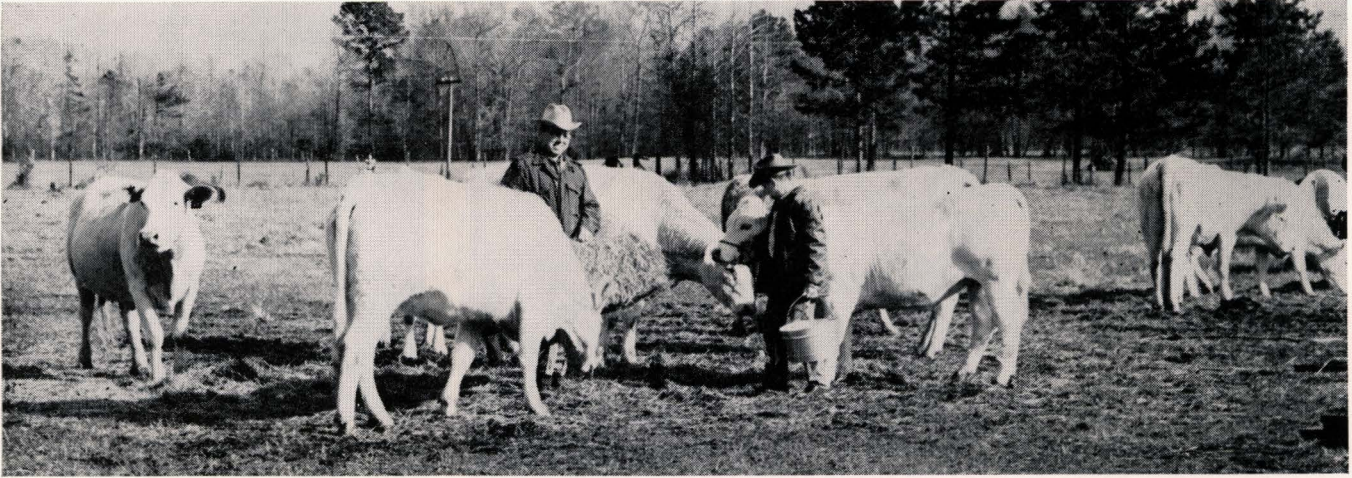

“We’re the most ambitious people on earth, and we run from morning until night trying to keep our earning power up with our yearning power.

“We’re supposed to be the most civilized nation on earth, but still can’t deliver payrolls without an armored car.

“But we’re still pretty nice folks. Calling a person “a real American” is the best compliment you can pay him. Most of the world is itching for what we have, but they’ll never have it until they start scratching for it as an individual.”

We have a great heritage, and more individual freedoms than any other people known to civilization. We cannot afford to take them for granted.

R. L. POLAND

The one-year-old prize heifer's grass and hay diet was supplemented with special high protein feed

# TONY BECK ...Ribbon Winner for CHAROLAIS

By CAROLYN CURTIS

**O**N A TYPICAL week day at the home of Stanley and Ada Beck, each of the five family members has scattered to his or her respective locale by 8 a.m.

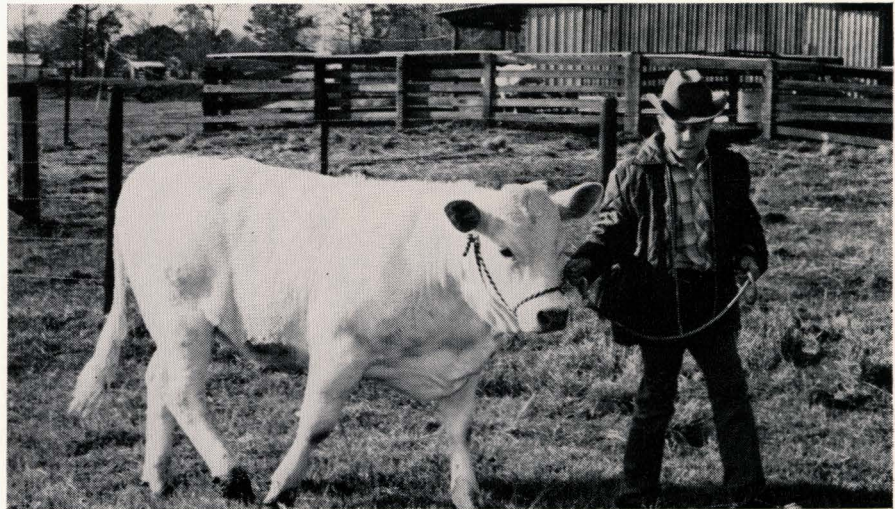

Stanley is the first to leave. He arrives at his job at the Industrial Engineering department at 7.

The next hour is filled with the last minute rush common to any household with three school-age children.

Fifteen-year-old Bernice puts her French horn in a conspicuous spot so that she won't forget it for band practice that day. Her talent won her the junior high contest baton last year, an award given the outstanding band student selected by the director. As a sophomore, Bernice plays in the Lufkin High School band this year.

If it's Monday, Tony, 10, lays out his Webelos scouting uniform for a quick change after school before going to his Pack 121 meeting. This year is his father's second year as cub master.

Meanwhile, a sleepy six-year-old

Every afternoon for weeks before she was shown, Tony walked his heifer one mile

searches for her black patent shoes with silver taps. Adina attends Peter Pan school and is a tap dancing student.

Just co-ordinating the activities of her crew would be a fulltime job for Ada, but her responsibilities include another job. At 8 a.m. she slips behind her desk at the Trailer Division Sales Office and assumes the role of career woman.

For Stanley, his day's work doesn't end at 3:30.

Two years ago, the Becks acquired 52 acres southeast of Lufkin on which they keep about 14 head of Charolais cattle, a French breed of white cows.

Stanley started dabbling in cattle about four years ago when he put two or three commercial cows in the 140-acre pastureland he inherited. Later he purchased 12 more acres and added a small herd of pure bred Angus.

"It didn't pay to raise and breed only a few cows, so I compensated by

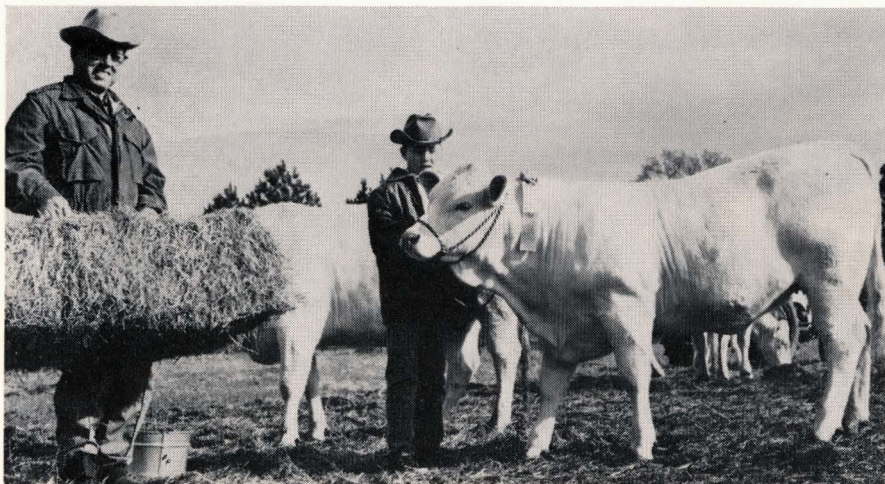

finding a better breed. When I switched to Charolais, I considered that a step up in grade," he explained.

The farm is a family project and along with the satisfaction of accomplishment and the educational value, there is glory to bask in. This year Tony's one-year-old heifer took fourth place ribbons in both the Angelina County and Houston Livestock Shows.

"When we arrived at the Houston show grounds, there were campfires and chuck wagons everywhere. The Sabine River trail riders were camped there and their camp had all the atmosphere of the old west," Stanley said.

Besides the ribbon, Stanley and Tony came home from the Houston show with another feather in their caps. They sold a cow and calf to the huge H. L. Hunt ranch in Winona.

That ribbon plus the one awarded their heifer at the local show represented many afternoons and weekends

Tony displays fourth place ribbon he won in the Junior Division, Houston Livestock Show

Tony is a member of 4-H and Webelos. He has earned the bear award, the wolf award with a gold arrow point and two attendance pins for perfect attendance

Stanley points out which cows are ready for market to Robert Jernigan, middle, and John Goodpasture, right, with Jernigan Charolais Sales Management of Tyler

of exhausting work for the Becks.

The first task ahead of them when they bought the property was to take a sledge hammer to the old barns and out buildings that were left on the land. Stanley replaced these with a haybarn which he built single-handedly.

They cleared the land and from a pine and post oak thicket sprung a pasture thick with coastal Bermuda grass. They tilled and sprigged the ground by hand to plant the grass.

They built fences and rigged up a wire puller to pull spools of barbed wire.

"I'll never forget the first night I brought home my first cow and calf," Stan reminisced. "I had to chase them all over the woods. My fences weren't

Stan shoots in the low 70s and has won trophies naming him (left to right) Club Champion '60, '64 and '65; First Flight Winner, 1966; Championship Flight Winner; and Second Place Winner, Two Ball Tournament, 1964

Adina and Tony test the propeller on their homemade radio-controlled airplane, "Top Dawg"

# MARKING AN ANNIVERSARY

Bernice's copper tooling, "Roses," was selected for display at the LHS art show

sturdy enough and the cow jumped over and the calf went right through them."

As show time neared this year, Tony spent more and more afternoons after school walking the prize heifer to tone her muscles and pulling her with a tractor to train her to lead. For six weeks he kept a radio in her stall so she would become accustomed to noise. Her grass diet was supplemented with high protein feed.

Tony has been a busy boy even when not training and grooming the cow. Last summer he was a starting pitcher on a farm league baseball team and this summer he will move up to Little League.

His sisters have been eager for him to complete his latest home project, a radio-controlled model airplane which he and his father are building from a home kit. Its predecessor took a nose dive and crash-landed.

In April the new plane lacked only a silk covering over its balsa wood frame. Tony even helped install the intricate network of wires leading to the servos which drive the throttle control, rudder control and elevator control.

The girls spend much of their time improving their musical skills. Bernice practices her French horn and Adina polishes her tap dancing steps.

Also Bernice's copper tooling was chosen for display at Lufkin High, where she is an art student. "Roses" features a butterfly, two open roses and a rose bud, all pressed into the copper for a bas-relief effect.

Both Stanley and Ada are golfers, and he is the recently elected president of the Men's Golf Association at Lufkin Country Club. Stanley has three large trophies and is a three-time

# Shop Talk

FROM the gift of one hippopotamus has sprung one of the major attractions in this area for young and old, the Ellen Trout Zoo, which recorded an attendance of 161,000 animal lovers last year.

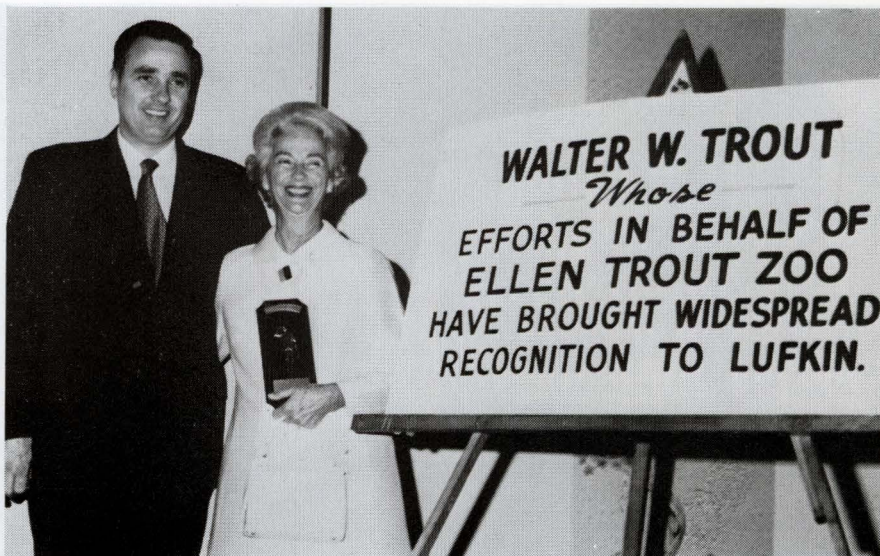

It all started when Chairman of the Board WALTER W. TROUT donated the hippo, a gift which gave impetus to the zoo-building project undertaken by Lufkin's Rotary Club.

His contribution and efforts were recognized by the Lufkin Booster Club, who named Trout "Booster of the Month" for April.

Revealing Trout's surprise selection, the club's director George Henderson Jr. said that although the zoo is less than three years old, it has attracted more visitors than any other tourist attraction in a central East Texas city.

Henderson said of Trout, "He has contributed heavily with his time and resources to the zoo's success and has been instrumental in securing support from other quarters for its continued expansion. As a result, we have in Lufkin an attraction that is the envy of every small city in the nation."

Kenneth Robinson, son of CLAUDE ROBINSON, Gas Engines department,

BILL TROUT and his mother, Mrs. Walter Trout, accepted the award for Walter Trout, chairman of the board, Lufkin Industries, Inc., who was named April's "Booster of the Month"

first shift, will be graduated in May from Stephen F. Austin State University with a degree in agriculture.

A graduate of Central Independent High School, Kenneth earned the FFA Lone Star Farmers degree and American Farmers degree.

He plans to teach agriculture next fall.

JAKE ROSS's grandson, Robert Warren, has been a three-time winner with his 1210-pound heifer.

He showed it at the Houston Fat

Stock Show where it won third place in the polled Hereford division.

It also took a first place in the Lufkin 4-H Show plus another first place at the South Texas State Fair in Beaumont last fall.

Jake works on the Machine Shop Assembly Floor, first shift.

Several former employees of the Machine Shop Assembly Floor, first shift, have transferred to the Assembly and Shipping department and we hear they are giving their former co-workers a fit with the jokes.

Their latest stunt is putting grease on steering wheels especially when A. J. HAVARD or JIMMY HERRINGTON have occasion to drive over to the south end of the plant.

No one is saying who the ring leaders are, but everything points to JERRY JACKSON, SAMMY KIRKLAND, LARRY SHIELDS and H. C. JACOBS.

JACK BROOKS' son, Charles, a former employee of the Trailer Division Drafting department, is completing his basic training at Ft. Polk, Louisiana, where he is an army private.

Jack is an employee of the Pipe House, first shift.

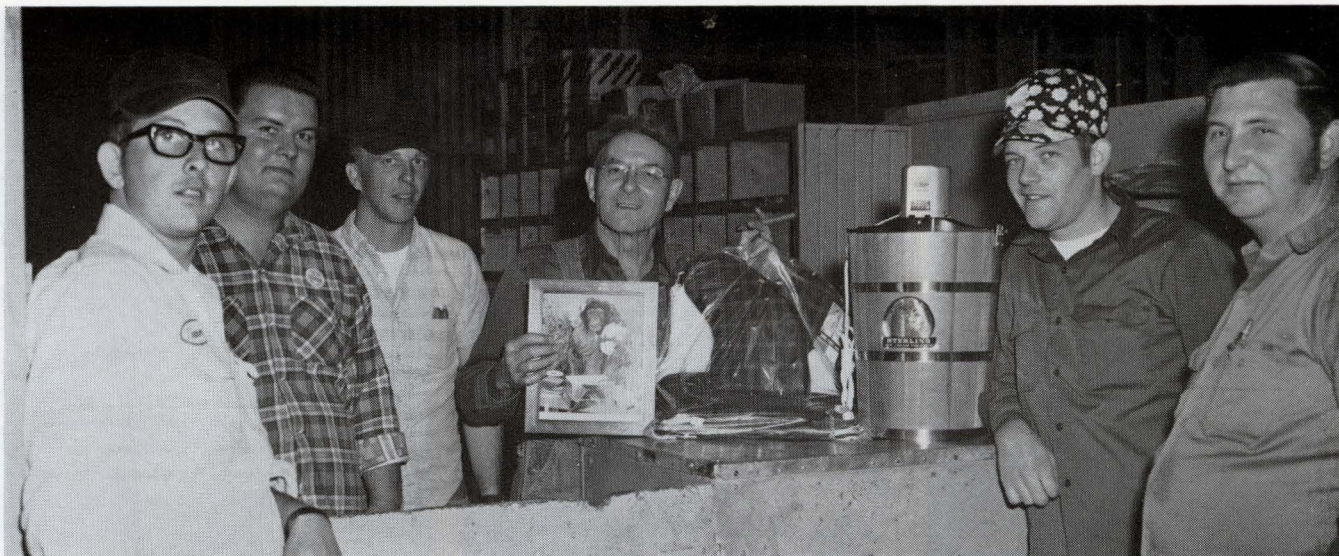

On GRATT THOMPSON's last day at work before retirement from the Trailer Division, the fellows surprised him with an ice cream freezer and life preserver vest.

He was employed in 1944.

Mark Love, son of BILL LOVE, Machine Shop timekeeper, first shift, will be a spring graduate of Lufkin High School.

ROBERT WARREN, grandson of Jake Ross, exhibited his grand champion Hereford heifer at the South Texas State Fair in Beaumont. Also pictured are Mrs. LeRoy Harrington and Ed Weaver, Fair officials

**ON GRATT THOMPSON'S** last day at work before retirement, fellows in the Trailer Division, second shift, gave him an ice cream freezer and a life preserver vest. The picture he is hold-

ing was signed by each and added to Gratt's souvenirs. From left to right are Danny Beauchamp, Carter Olds, Jackie Jordan, Gratt Thompson, Gary Rouse and Donnie Chandler

He plans to study engineering, and will enroll in Angelina College next fall.

E. H. Francois, General Sales Manager for the AC Spark Plug Division of General Motors Corporation, has announced the appointment of **CARL BRUCE GARNER**, Mill Supplies Division, to the Gold Medallion Honor Council.

In a letter to Carl Bruce, Francois said, "You can take pride in this achievement that was earned through your outstanding performance in the sales and promotion of the AC product lines. The support of dedicated salesmen such as yourself are the key factors that contribute to the growth and prosperity of your company as well as AC."

Carl Bruce attended a meeting of the Gold Medallion Honor Council in

**CARL BRUCE GARNER . . .** appointed to Gold Medallion Honor Council

Las Vegas, Nevada, April 10 through 13. He was the only salesman from Texas and five southern states appointed to the council.

He credited other Mill Supplies salesmen with helping him earn the honor, including **KELLEY GRIFFIN**, **JIMMY SINGLETON**, **HARLEY BAKER**, **JAMES COX** and **JERRY MORRIS**.

Airman James Pena has been home for a two-week leave from Whiteman Air Force Base, Missouri. He has completed the technical school for administrative specialists.

Airman Pena is the brother of **JOHN PENA**, Trailer Division timekeeper, first shift.

Via the grapevine came word that **LUDA BELLE WALKER**, Main Office, can hardly wait for fishing season to get here.

With that first touch of summer breeze, Luda Belle's imagination seems to get the best of her.

In March she was seen test driving her boat, while it was . . . well, docked on dry land, to say the least. In fact, "The Shamrock" was parked in the carport, on its trailer and miles from the lake.

A little daydreaming never hurt anyone.

David Bowers, a recipient of a Lufkin Industries scholarship, was named to the dean's list at Texas Tech with a straight A grade point average of 3.0.

A junior industrial management major, he is the son of **DOYLE BOWERS**, Industrial Engineering department.

The fellows in the Pipe House say they believe **DELBERT WILLIFORD** is looking better now that they've started looking after him at mealtime.

Delbert says he's not falling for any bribery, just good eats.

The daughter of **HUBERT LANKFORD**, Gear Cutters, second shift, will be graduated from Centerville High School this spring.

She is Mrs. **JAMES KING** and her husband works in the Trailer Division, second shift.

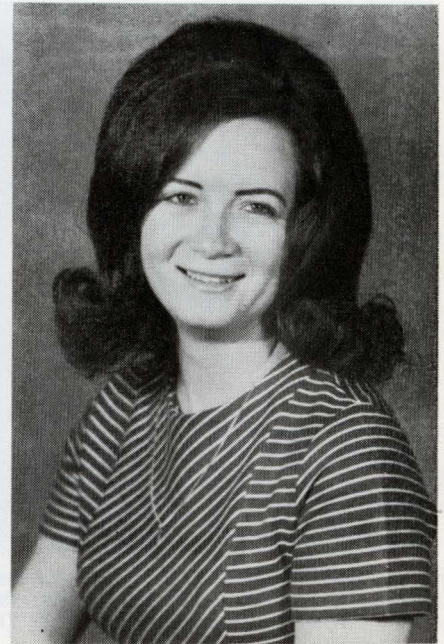

**SPENCE DENMAN** was given a power saw by the boys in the Machine Shop, first shift, on his last day at work

MRS. DAVID EDD HENDRICKS

MRS. SAM JOHNSON

EARLINE MILES

**Engagements are announced by:**

Mr. and Mrs. Earl Miles, Zavalla, whose daughter, Earline, will marry SAM BARROW, Machine Shop, second shift, on June 14. His parents are Mr. and Mrs. J. A. Barrow, Lufkin.

Mr. and Mrs. BILLY COLLMORGEN, whose daughter, Doris Hughes, will marry Thomas Benford Frizzell, son of Mrs. Joe Frizzell, Crockett, on June 27. Father of the bride-elect works in the Electrical department, first shift.

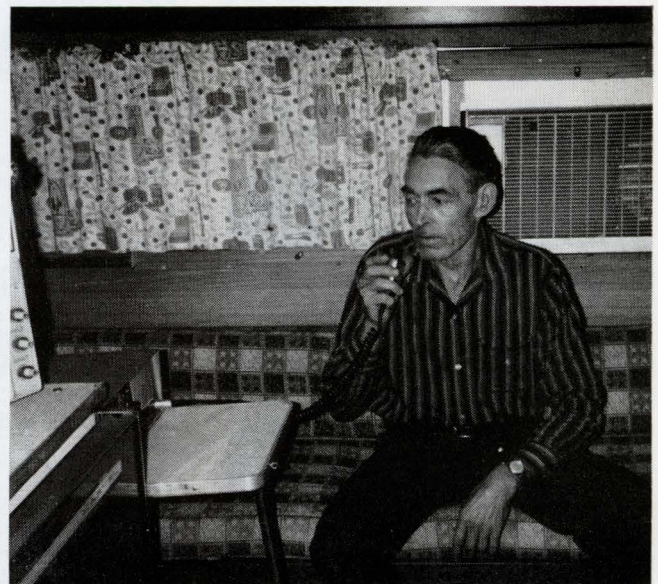

She holds a bachelors degree from Stephen F. Austin State University and he is a graduate of Sam Houston State University with both bachelors and masters degrees.

Mr. and Mrs. Art Finley, whose daughter, Karen Sue Keith, will marry John Wesley Chastain Jr. June 5. He is the son of Mr. and Mrs. JACK CHASTAIN and his father is an employee of the Maintenance department, first shift.

**Congratulations to newlyweds:**

Mr. and Mrs. SAM JOHNSON, whose wedding was March 27. Patricia is the daughter of Mrs. Doris Marie Hutson and Sam's parents are Mr. and Mrs. Joe Johnson. Sam works in the Tool Room, first shift.

Mr. and Mrs. David Edd Hendricks, who were married March 28. Linda Jean is the daughter of Mr. and Mrs. PRESTON LOVELESS and her father is an employee of the Material Control

FAVORITE hobby of John Daniel, Gear Cutters, second shift is his C.B. Radio, which he installed in his camper trailer

JOHN CHASTAIN JR. and Karen Keith . . . to marry June 5

MRS. FREDDIE SULLIVAN

department. The bridegroom's parents are Mr. and Mrs. ARNOLD HENDRICKS and his father works in the Machine Shop, first shift.

Mr. and Mrs. FREDDIE SULLIVAN, who were married Feb. 28. Freddie works in the Welding and Structural Shop, third shift. Their parents are Mr. and Mrs. Albert T. Brown and Mr. and Mrs. Charles Calhoun.

**There are new arrivals in the homes of:**

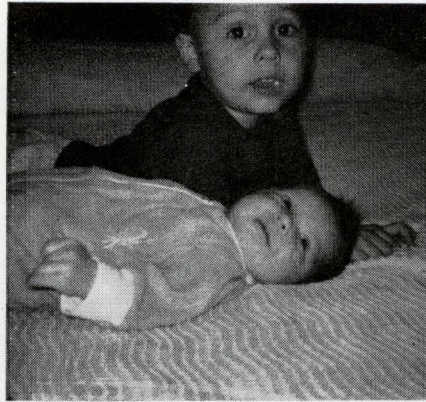

Mr. and Mrs. MONROE JONES. Tammy Renee weighed 7 pounds 15 ounces when she was born March 4. Her father is employed in the Mill Supplies Division.

Mr. and Mrs. David Dorsett. John David was born Dec. 26 and weighed 7 pounds 2 ounces. The baby's grandfather is HUBERT DORSETT, Mill Supplies.

Mr. and Mrs. CLAYTON McCLURE. Carl Ivan weighed 6 pounds 11 ounces at birth Feb. 13. His father is an employee of the Trailer Division, first shift.

Mr. and Mrs. MORGAN FLOURNOY, who adopted James Mitchell. He was born Feb. 22 and weighed 7 pounds 8 ounces. Morgan works in the Industrial Engineering department.

Mr. and Mrs. J. L. RAMEY. Chris

KEVIN AND SHARON ALIECE

was born Feb. 23 and weighed 8 pounds 8 ounces. His father works in the Assembly and Shipping department, first shift.

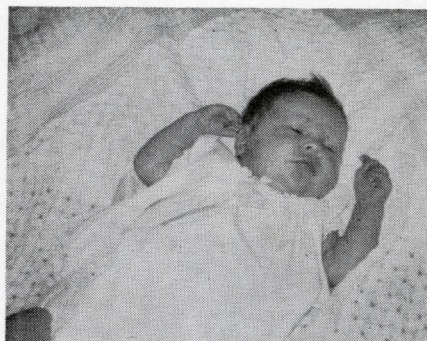

Mr. and Mrs. BILL SIDES. Venessa DeLane weighed 5 pounds 4 ounces when she was born Feb. 11. Her father is an employee of the Maintenance department, first shift.

Mr. and Mrs. J. T. Hopson. Robert Kent weighed 7 pounds 11 ounces when he was born March 24. Maternal grandfather is JUDGE HUTSON, Machine Shop Inspection department, first shift.

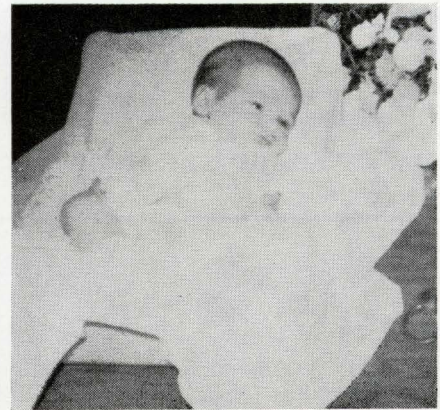

Mr. and Mrs. BOBBY WOOD. Bobby Jearl Jr. was born March 15 and weighed 7 pounds 15 ounces. The new father works in the Machine Shop, second shift.

Mr. and Mrs. JERRY MORRIS. Jay Allan weighed 7 pounds 11 ounces at birth Feb. 23. Jerry works in the Mill Supplies Division.

Mr. and Mrs. DAVID FORD. Kathryn Louise weighed 7 pounds 5 ounces when she was born March 8. Her father works in the Foundry department.

TAMMY RENEE JONES

JAY ALLAN MORRIS

ment, first shift, and her uncle, GARY WELLS, is employed in the Trailer Division, first shift.

Mr. and Mrs. TONY RAGLAND. Sharon Aliece was born Feb. 23, weighing 7 pounds 13 ounces. Tony is an employee of the Mill Supplies Division.

**Best wishes to the following employees:**

JOHN LAIRD, Material Control Warehouse, first shift, who had surgery.

ED HUDGINS, Traffic department, who had surgery.

BILL PENNINGTON, Welding and Structural Shop, first shift, who had a bout with flu.

L. F. (DOC) READ, Trailer Division, first shift, who underwent surgery.

**Deepest sympathy goes to:**

DEE RUSSELL, Tool Room, first shift, and CLETUS RUSSELL, Assembly and Shipping, first shift, upon the death of their mother.

WILLIE D. WRIGHT, Machine Shop, third shift, upon the death of his father.

The family of C. A. THOMPSON, Trailer Division, first shift, who died March 10.

JIMMY THOMPSON, Yard Crew, first shift, whose sister died.

The family of LAMAR RICHARD, Machine Shop, first shift, who died March 31.

Dr. GAIL MEDFORD, company physician, whose father died March 22.

It's a pity there aren't game laws to restrict the bull shooters.

The Congressman's wife sat up in bed. "George," she whispered to her husband, "there's a robber in the house."

"Impossible," was the Congressman's sleepy reply. "In the Senate, maybe, but in the House? Never."

"I didn't come to be told I'm burning the candle at both ends," said the patient to his doctor. "I came for more wax."

One Hollywood actress mourned so deeply the death of her fifth husband that she insisted on black olives in her martinis.

Little boy to his mother after returning from a car ride with his father: "We passed two idiots, three morons, four darn fools and I don't know how many knotheads."

Little boy: "Dad, when I grow up I'm going to marry grandma."

Father: "You can't do that, son. She's my mother."

Little boy: "Well, you married mine."

There are three kinds of employees: Those who make things happen; those who watch things happen; those who have no idea what has happened.

George knows why lie detectors are so expensive. He married one.

A young man applying for a police job was asked what he'd do to break up a hostile crowd.

"Take up a collection," he replied.

A duck is a bird that walks as though it has been riding a horse all day.

Two hunters were driving along a snowy, northern Minnesota road and suddenly came to a steep hill. Spotting an old woodsman cutting pine, they stopped and asked if the hill was dangerous.

"Not up here, it ain't," he replied. "But a lot of folks gets pretty busted up down at the bottom."

"So Johnny's in college. What's he going to be?"

"Lord only knows, but we're hoping he'll be a sophomore."

"What made you decide to become a parachute jumper?"

"A plane with three dead engines."

If you listen to the loan company commercials, you'll almost believe you can borrow yourself out of debt.

"Is your new baby a boy or a girl?" the proud little boy was asked.

"It's too early to tell," he said. "It's still wearing swallowing clothes."

Teacher: "Carol, can you use these words in a sentence: defeat, deduct, defense and detail?"

Carol: "Defeat of deduct went over defense before detail."

An intellectual university student decided to write a thesis on a provocative subject: "Psychoanalytical Synthesis of the Application of Ecological Transcendentalism to the Motivation and Behavior Patterns of Adolescent Females."

In brief, "How Girls Grow Up."

Definition of a kid: "A short human being who stands between you and the television set."

Teacher: "If you had seven pieces of candy and I asked for four, how many would you have left?"

Student: "Seven."

One man was so dumb he thought stagnation was a country for men only.

A man confided to his friend that life was empty. "The woman I love has just refused my proposal of marriage."

"Well, don't let that get you down," comforted the friend. "A woman's 'no' often means 'yes.'"

"She didn't say 'no,'" was the answer. "She said 'phooey.'"

The man was more than a little annoyed when a neighbor telephoned at 3 a.m. and complained, "Your dog is barking so loudly that I can't sleep."

The neighbor hung up before he could protest.

The following morning at 3 a.m. he called his neighbor to report, "I don't have a dog."

"How may one attain a good posture?" the country school teacher asked the boy.

"Keep the cows off it and let it grow awhile," he replied.

One man says he would like to go back to the days when his wife's meals were carefully thought out instead of carefully thawed out.
