

# The Lufkin Roundup

JULY 1970

# FROM THE PRESIDENT'S DESK . . .

FELLOW EMPLOYEES:

**F**OR the last several years, our costs here at Lufkin have been increasing more than we have been able to increase our selling price on all of our equipment.

We must be sure that this does not continue to the point that our business does not make a profit. This happened in the case of Parkersburg, Ideco, Cabot, Lacy and Bethlehem, and you will recall what happened to each of these plants.

Today and every day, it becomes essential that everyone who works at Lufkin Industries also works *for* Lufkin Industries. It is necessary that each employee becomes cost-conscious.

If you can produce an extra part on your regular shift or can save a piece of material from scrap, then you are helping to keep our unit cost to a minimum.

We invest more money in new equipment each year than we pay in dividends to our stockholders. We must keep our tools and machines up-to-date in order to produce the maximum per man-hour. It is becoming increasingly harder to do this, even with the newest expensive tape and automatic machines.

Non-production employees need to contribute to a cost-cutting program just as much as production employees. There are countless ways overhead costs can be trimmed if an employee wants to be part of the solution rather than part of the problem.

This isn't something you can think about tomorrow. The time is now. If we apathetically think it can't happen here, we may wake up some morning and it will be too late!

Lufkin Industries always has provided good jobs for those who are willing to work, even in times of depression. However, Lufkin Industries is not a gravy train for those looking only for a paycheck.

We hope we can work together in the future to insure good jobs for all of us for years to come. The success and continued growth of our company and our jobs will depend on how well we work together to accomplish the greatest production at the lowest cost, and sell our products at a competitive price in order to make a reasonable profit.

If we fail to do this, we can lose our business and our jobs.

R. L. POLAND

# High School Graduation-and Scholarships

By CAROLYN CURTIS

**F**OUR honor graduates of Lufkin High School, all with A averages, were named as recipients of four-year, \$2400 scholarships by Lufkin Industries, Inc. Charitable and Education Foundation.

They are Richard Davis DeBehnke, Carolyn Kay Steele, Charlotte Elizabeth Floyd and Brenda Jo Stone.

Parents of the winners are Wayne DeBehnke and the late Mrs. DeBehnke, Mr. and Mrs. Ray Steele, Mr. and Mrs. Joe T. Floyd and Mr. and Mrs. Travis Stone.

DeBehnke works in metallurgy in the Foundry department; Steele, Traffic department; Floyd, Cost Accounting; and Stone, Machine Shop, second shift.

Each scholarship is valued at \$2400 with \$600 being paid each year for four years to the winner's choice of colleges within Texas. Scholarships are awarded on the basis of character, citizenship and academic achievement.

This year's winners bring the total to 24 scholarships amounting to \$52,800 which have been awarded to children of Lufkin Industries employees since the Foundation initiated the program in May, 1965.

**T**HIS fall Dick DeBehnke will be off for The University of Texas at Austin, where he plans to pursue a degree in "something along the lines of math and science," his favorite subjects.

Dick loves a challenge and says that although he always made A's in math, he considers it a hard subject and the A's were not always easy to come by.

"I took all the math offered at LHS and when we came to probabilities, that almost stumped me," he said, and, noting that the topic was above the interviewer's head, quickly added an explanation of probabilities that proved he dug deeply for that A too.

He prefers courses that reach an exact conclusion such as math and science rather than courses based

ONE OF Dick DeBehnke's summer chores is yard work.

mainly on opinion and interpretation such as English.

Apparently, the interpretation-type subjects give him no trouble, though, because he was named the top boy English student during his junior year.

Dick says he enjoys tests that rank students in percentiles because he likes competition. He was awarded a National Merit Commendation for his high score on a test ranking students in a percentile based on the scores made by other students across the nation and also scored in the 680s (out of a possible 800) on his college board entrance exams, a tough test even for a straight A student such as Dick.

Dick has a simple rule for studying for finals.

"Listen closely in class and learn the material thoroughly the first time, then reviewing for the exam is relatively easy."

In other words, he doesn't believe in cramming. He says the knowledge a student gains from cramming won't stay with him beyond the test so Dick usually spends the night before exams priming himself with sample review questions.

At Lufkin High, Dick was president of the National Honor Society, named Who's Who in American High Schools and Who's Who at LHS, and was a member of Key Club and CIA, an organization formed, he explained, to promote a Christian atmosphere at school.

A member of Dramatics Club, Dick played the part of a soldier in "Romanoff and Juliet."

He was on the track team and won fifth place in the district meet. His best time on the 880-yard dash was 2:03.0.

CHARLOTTE FLOYD pours over a Texas Tech catalog. KAY STEEL hopes to finish her Afghan this summer.

**K**AY Steele plans to delve into the computer field when she enters Angelina College in the fall.

At LHS, she was a whiz in business subjects, particularly at shorthand, for which she won the shorthand award at the awards day assembly. She takes dictation up to 100 words per minute, which is about as fast as most people talk. Kay also took typing and bookkeeping.

This fall she will enroll in data processing and key punch operating, then go into business courses in more depth when she transfers to Stephen F. Austin State University her junior year.

Another course Kay excelled in was home economics.

"We learned practical things that we can really apply when we start a home," she explained.

Besides cooking and sewing, she particularly enjoyed the units devoted to family living and home nursing.

One of her class projects was to redecorate her room at home and Kay bought a matched set of curtains, a bedspread and a study pillow, all made of the same green and yellow print material.

She was named the Betty Crocker Homemaker of Tomorrow during her senior year, an award based on her high test score and adeptness at home skills.

Kay believes in getting her school work out of the way early. In fact, she is taking freshman English at Angelina College this summer so "I won't have that facing me next fall." At high school

she finished all her homework during study hall and at night, so it wouldn't pile up on her during the weekends.

She even imposed on herself a policy of saving school nights for study rather than going out with friends unless "it's a very special occasion."

She was a member of National Honor Society, Senior Council, Pep Squad and French Club.

**T**EXAS Tech is the choice of Charlotte Floyd, who plans to major in history or possibly political science.

She leans more to the study of ancient history and European history than American history and has taken it upon herself to read historical biographies in her spare time in an effort to acquaint herself with the various political and social movements of older civilizations.

She says she judges a book quickly by its beginning and tosses it aside if she can tell that it won't hold her attention.

"I can usually tell pretty early in a book whether or not it's put together in an interesting way. Books are a little like movies. Sometimes the plot isn't too good but if it is effective from a technical standpoint, I can enjoy it," Charlotte explained.

She also writes poetry and short stories when the inspiration comes, times she describes as "low moods."

"I can express myself better when I'm sad. Writing helps me get it out of my system."

SKETCHING is a favorite pastime of Jody Stone's.

Charlotte mentioned that she knows how tempting it is for college students to come home on weekends, bringing laundry and generally continuing the dependence on parents. She cited this as one reason she chose to go to school so far from home.

At Lufkin High, she was a co-editor of the annual, a member of National Honor Society, Future Teachers of America and the Dramatics Club. She was chairman of the sound effects committee for "Romanoff and Juliet" and chairman of make up for "Carousel."

**J**ODY Stone is anxious to exert her independence as a college student and will live on campus at SFA instead of commuting to Nacogdoches.

"When you get out of high school, it's time to begin breaking away and getting used to being on your own. I think the first step is living on campus," she said.

Her self-confidence manifests itself in other ways too. She has forthright opinions on government and student discord on campuses and she'll quickly tell you that she doesn't believe young people are prepared to make decisions concerning college administration, etc.

"Students need to trust adults more than they do, especially the President, because he has much

more experience than young people and knows more about what's best for us. I believe he has our interests at heart."

Jody plans to pursue a math degree at SFA, possibly combining it with a teaching certificate to teach on the secondary level.

She excelled in art and spends much of her spare time at home sketching faces of family members and friends. She also paints, using oils, and once made a mosaic picture of colored glass which won a first place award.

Jody describes herself as an outdoorswoman "like my daddy" and remembers a 10-pound gar she caught on the Neches River that she could barely pull into the boat.

At school she has never made a grade below B and has had a straight A average every semester. In fact, for several years the only B's she made were in physical education, so, during her senior year, she worked as a biology lab assistant and office assistant in lieu of the PE courses.

Jody was a member of National Honor Society, French Club, Future Teachers of America, Pep Squad, Senior Council and was secretary of the Junior Engineering Technical Society, an organization for students with special interest in math, science and related fields.

# Shop Talk

**S**EAMAN Leroy Johnston is stationed aboard the same Navy ship his father-in-law, RAY WOLFORD, was during World War II, the USS Piedmont, now docked in San Diego Bay and soon to sail for China and Japan.

Ray is an employee of the Construction and Maintenance department, first shift.

The son of AL WALTON, Trailer Division, was graduated May 29 from Lufkin High School, where he played in the band.

Alie plans to attend Angelina College to pursue an associate of arts degree, then transfer to the University of Kansas, where he has a music scholarship. He plays trombone, organ, piano and accordian.

Mr. and Mrs. J. P. Hunter Jr. announce the engagement of their daughter, Janie, who will marry George Griffith, son of Mr. and Mrs. Everitt Griffith Jr., August 14. The bride-elect's mother, RUBY, is employed at the Trailer Division.

Phillip Ray Fenley, son of Mr. and Mrs. ZACK FENLEY, has accepted a position as junior accountant with Pan American Petroleum Corporation at the home office in Tulsa, Oklahoma.

He is a graduate of Stephen F. Austin State University with a major in history and a minor in accounting.

Zack is foreman of the Pipe House.

LEFT TO RIGHT, Mr. and Mrs. Zack Fenley and Mr. and Mrs. Bobby Spells . . . second place winners in the couples bowling league tournament in Nacogdoches.

We hear that LARRY CORDOVA hasn't had much luck finding a suitable stake on which to tie his horse. Further details are available for the asking, say his co-workers in the Commercial Gear department, first shift.

Congratulations to GERALD KENDRICK, Welding and Structural, second shift, who was graduated from Stephen F. Austin State University with a bachelors degree in art.

Wanda Hardy, daughter of Mr. and Mrs. FRED HARDY, is a spring graduate of Lufkin High.

Fred is an employee of the Traffic department.

The National Bass Fishing champion was among guests of the Trailer Division at Piney Point Memorial Day weekend.

An expert angler, John Fox of San Augustine gave fishing pointers to trailer customers visiting the company's Sam Rayburn Lake clubhouse.

He is president of the American

Anglers Association and creator of the flutter tail worm bait. His company is the John Fox Championship Bait Company.

Mrs. BOBBY SMITH is a spring graduate of Stephen F. Austin State University. Her husband works in the Foundry department, second shift.

BUDDY PULLEN's nephew, Danny David, a former employee of the Gear Cutters department, second shift, has completed a two-week training school in Sacramento, California, and is on his way to Thailand for a one-year tour with the Air Force.

Buddy is foreman of the Maintenance department, first shift.

Among the graduates at Prairie View A&M College this spring was Annie Steed, a winner of the company scholarship.

Daughter of JAMES STEED, Foundry department, first shift, she received a bachelor of science degree in education.

ANNIE STEED . . .  
Prairie View graduate

JANIE HUNTER . . .  
wedding date is August 14

Mr. and Mrs. BOBBY SPELLS and Mr. and Mrs. ZACK FENLEY won second place out of 16 teams entered in the couples bowling league tournament in Nacogdoches concluding 35 weeks of stiff competition.

Zack said, "Both the girls bowled over their heads. We couldn't have won second place without them."

He and Bobby carried averages of 170 pins each and Mrs. Fenley wound up with a 145 average and Mrs. Spells, 129.

Bobby works in the Engineering Lab and Zack is foreman of the Pipe House.

Lloyd Ray Hamilton is a spring graduate of Apple Springs High School. His father is R. L. HAMILTON, Welding and Structural Shop, first shift.

As if enough tales haven't been told on women drivers, the fellows in the Main Office have still another one.

Seems that keypunch operator JANELLE MILLER is taking a lot of teasing about the fact that she finally passed the driving exam. It was her third try.

Just another example that the third time is always a charm.

Congratulations go to TROY DALE EDWARDS, Welding and Structural Shop, first shift, who was awarded a certificate for completion of the

MILL SUPPLIES DIVISION was presented a plaque by Raybestos-Manhattan, Inc. marking the purchase of more than \$1 million worth of key industrial rubber products. Pictured are, back row, left to right: Justin Ehman, distributor sales manager, Bridgeport, Conn.; R. L. Poland; Bill Springfield, manager, Dallas district; Bayo Hopper. Front row, left to right: R. B. Hazard, vice president sales, Bridgeport, Conn.; Carl Garner; Ed Nagel, sales representative, Dallas.

welding course at Angelina College graduation exercises.

Joe Thad Floyd Jr., a spring graduate of SFA with a BS in political science, has been accepted to Law School at Texas Tech.

Thad is the son of Mr. and Mrs. JOE T. FLOYD and his father works in the Cost Accounting department.

It's getting so that we're almost afraid to ask A. J. HAVARD about his fishing exploits. His fellow employees on the Machine Shop Assembly Floor, first shift, LEE NERREN, reports that A. J. is up to his old tricks again. This time A. J. turned his boat over and got a mouthful of lake.

BILL PENNINGTON, left, foreman, Welding and Structural Shop, and retiree John Cook.

# JOHN COOK RETIRES...

IT ALL started 19 years ago in the old welding shop for John E. Cook. He remembers moving to the new facilities and switching from night shift to day shift. John's first day at work was June 12, 1951.

He says he farmed all his life and now that he is retired he has more time for gardening on his eight acres on Loop 287.

He also has a lot on Toledo Bend and some rental property.

A grandfather to twelve, John has three daughters in Pasadena and a son in the Air Force who recently returned from Vietnam. His step-son is a junior partner with a law firm in Dallas.

John also has time for fishing and hunting, especially bird hunting, his favorite.

"I'd rather bird hunt than anything, but in this area I do mostly squirrel hunting," he said.

MEMBERS of Lufkin's Mark II team are, left to right: Stacey Burnette, Engineering; Al Mallonee, Engineering; James Carlile and Ronnie Smith, both Welding and Structural, first shift; Mike Cloyd, Material Control.

MEMBERS of Lufkin's Kingpins team are, left to right: George Haygood, Machine Shop, first shift; Bobby Spells, Engineering; Zack Fenley, Pipe House, first shift; Charlie Hamilton, Trailer Division; Lee Burnette, Accounting.

Two recipients of the 1968 company scholarship were listed among the graduates of Angelina College in May.

Janice Chapman and Terry Bishop received associate of arts degrees and both plan to continue their educations at Stephen F. Austin State University next fall. She is a physical education major.

Their fathers are R. D. CHAPMAN, Traffic department, and CONNELLEE BISHOP, Trailer Division, first shift.

Private Don Bridges, son of GLENN BRIDGES, Foundry department, first shift, is stationed at Ft. Ord, California, for army basic training.

Another son, Gary, is a 1970 graduate of Lufkin High School.

LUCY RICHARDSON and MAURICE WILSON, both employees of the Trailer Division, and their spouses spent a Saturday deep sea fishing off the coast at Galveston.

Maurice reports that his wife was the only one who had any luck. She came home with four red snappers, and together they tipped the scales at 42 pounds.

The son of MARVIN SIMON JR. made the honor roll last semester at Mt. Enterprise High. Marvin works in the Pipe House, first shift.

Mr. and Mrs. JUDGE HUTSON recently visited relatives in San Angelo.

Judge, an employee of the Inspection department, first shift, said, "We went by car and, as an Indian would say, 'ugh, it was a heap long way.'"

Stacey Lee Burnette is working in the controller's office for Texaco, Inc. in Los Angeles, California. A 1970 graduate of SFA, he is the son of LEE BURNETTE, Accounting department.

Results of the Southern Bowling Conference tournament in Shreveport showed that RONNIE SMITH and JAMES CARLILE, both employees of the Welding and Structural Shop, first shift, placed 93rd out of 1121 entries in the doubles event.

In other bowling news, the company's Mark II team came in 29th out of 244 entries in the Class C team competition at the Southwest Bowling Tournament in Oklahoma City.

Members of the team are AL MALLONEE, Engineering; MIKE CLOYD, Material Control; Stacey Burnette, son of LEE BURNETTE, Accounting; and Smith and Carlile.

Also, ZACK FENLEY, Pipe House, a member of the Kingpins team, placed 38th out of 1166 entries in the singles event and 11th out of 971 in the all-events division. Smith was close behind in the singles event, placing 42nd.

Congratulations to Susan Byrd, daughter of Mr. and Mrs. JOE BYRD, who was graduated from Trinity University with a bachelor of arts degree in speech and drama.

Joe is manager of Research and Development.

ROBERT MCNEELY, Maintenance department, first shift, says he has fished 'til he's "blue in the face" with his mother-in-law who spent May with them.

"She loves to fish and she has good luck," Robert said. He added that he took her to the lake nearly every afternoon during her visit.

We hear that CLAYTON JIRCIK couldn't find a dry spot to put his cot during a Foundry department campout May 8 at Lake Sam Rayburn.

The fellows said that all during the night they could hear Clayton moving his cot trying to avoid the rain dripping down from the tarp stretched above him.

**Congratulations to newlyweds:**

Mr. and Mrs. William Francis Crager Jr., whose wedding was June 5. She is the former Reba Forsythe, daughter of Mr. and Mrs. George Rowe and his parents are Mr. and Mrs. W. F. CRAGER. The bridegroom's father is an employee of the Welding and Structural Shop, first shift.

Fussy diner in a restaurant: Yes, waiter, I'll have pork chops, mashed potatoes, peas, and salad. And make the chops lean.

Waiter: Which way, sir?

The administration seems to forget that this country was founded as a protest against taxation.

"How'd you get those red marks on your nose?"

"Glasses."

"Glasses of what?"

A staid gentleman, honorary judge at a horse show, was upset by the dress of some of the girls.

"Just look at that young person with the poodle cut, the cigarette and the blue jeans," he decried to a bystander. "Is it a boy or a girl?"

"It's a girl. She's my daughter."

"Oh, forgive me, sir," apologized the old fellow. "I never dreamed you were her father."

"I'm not," snapped the bystander. "I'm her mother."

In many parts of the Orient, a marriage is arranged by the parents and a man doesn't know his wife until after the marriage.

The arrangements in the United States are considerably different but the results are identical.

"If our car gets much older," the long-suffering motorist declared, "they'll start issuing it upper and lower plates."

Then there's the one-eyed discus thrower. He didn't set any records but he sure kept the crowd alert.

A distraught mother made the following announcement to a group of wild children at a birthday party: "There will be a special prize for the one who goes home first."

It used to take two bales of cotton to make a woman's dress. Now a silk worm can do it on his day off.

A woman rarely realizes her age until the birthday cake begins to look like a forest fire.

"Now," began the architect, "If you'll give me the general idea of the kind of house you need . . ."

"I want to have something," replied the husband, "to go with the door-knocker my wife brought home from New England."

When Dennis and Murphy drifted into the big city they came to share the same room. Dennis knew that Murphy had a wife back home but he seldom mentioned her. One day Murphy received a letter and Dennis asked, "Who's it from?"

"From my wife," Murphy replied.

"But Murphy," Dennis protested as he watched his friend draw a perfectly blank sheet of paper from the envelope, "there's nothing written there!"

"I know," Murphy replied, "Me and the missus ain't speakin'."

A kind-hearted old gentleman saw a little boy stretching to reach a doorbell. The man rang the bell for him and asked, "What now, little boy?"

"Run like hell," said the little boy, "that's what I'm gonna do."

Adolescent: A youngster old enough to dress himself if he could just remember where he dropped his clothes.

A stage is what many a teenage girl thinks she should be on when actually it's just something she's going through.

It was Sonny's first week at summer camp. "Dear Mom," he wrote home. "Please send me some food packages. All we get here is breakfast, lunch and dinner."

The golfer was positioning his ball at the seventh tee when a gorgeous girl, attired in a bridal gown, walked up to him.

He looked at her, obviously displeased, and said, "I told you distinctly, 'only if it rains.'"

Though he was a thoughtful husband, his gifts never pleased his wife. She found them too large or too small, too gaudy or too dull. So, instead of trying to get her something for Christmas, he decided to give her a \$50 gift certificate. When he returned home the day after Christmas he asked his wife what she got with the certificate.

"Nothing yet," she replied. "I just went downtown and exchanged it for two \$25 certificates."

It is said that they have a different kind of TV system in Russia. There it watches you.

Sign in the middle of the road reads: "Road closed. Do not enter."

On the other side of the sign, scrawled in chalk: "Welcome back, stupid."
